**Life: A User's Manual** Georges Perec, 2009-07-01 The renowned French author's modern masterpiece one of the great novels of the century on the level of Joyce Proust Mann Kafka and Nabokov Boston Globe Structured around a single moment in time 8 00 p m on June 23 1975 Georges Perec's elaborate jigsaw puzzle of a novel begins in an apartment block in Paris where chapter by chapter room by room a rich cast of characters is revealed in a series of tales that are bizarre unlikely moving funny and sometimes quite ordinary Rolling Stone From the confessions of a racing cyclist to the plans of an avenging murderer from a young ethnographer obsessed with a Sumatran tribe to an eccentric English millionaire who has devised the ultimate pastime Life A User's Manual is a symphony of human irony portraying the mixed marriages of fortunes passions and despairs betrayals and bereavements of hundreds of lives in Paris and around the world The apartment block's one hundred rooms are arranged in a magic square and the book as a whole is peppered with a staggering range of literary puzzles and allusions acrostics and problems of chess and logic All are there for the reader to solve Those who have a taste for the unusual for books that create worlds unto themselves will be dazzled by this crazy quilt monument to the imagination The New York Times Book Review Understanding Information History William Aspray, 2023-11-28 Microhistory is a technique that has been used effectively by writers of both fiction and nonfiction It enables the author to cut through the complexities of large swaths of history by focusing on a particular time and place Microhistories are particularly useful in historical study when a subfield has recently arisen and there are not yet enough monographic studies from which to draw general patterns This microhistory focuses on a single year 1920 across the United States with the goal of understanding the various roles of information in this society It gives greater emphasis to the informational aspects of traditional historical topics such as farming government bureaucracy the Spanish flu pandemic and Prohibition and it gives greater attention to information rich topics such as libraries and museums schools and colleges the financial services and office machinery industries scientific research institutions and management consultancies Deciphering Carlo Ginzburg Deivy F. Carneiro, Daniel R. B. Dias, 2024-10-30 This book offers an original reading of Carlo Ginzburg's work tracing his trajectory in the context of Italian micro history his debates on the objectivity of historical knowledge and the connection of his work to the expanded perspectives constructed in recent decades by global history Ginzburg's theories have achieved notoriety not only in the field of history but also among the wider public This volume uses Ginzburg's own aesthetic and intellectual practices in its analysis and it deciphers the elements that drove and influenced the making of his work By highlighting the procedures that Ginzburg has constructed to respond to problems of cultural history the book also pays close attention to Erich Auerbach and Aby Warburg whose influences played a crucial role in reformulating Ginzburg's conception of micro history From there the volume demonstrates the radicality of Ginzburg's micro history through the discussion of some of his most recent contributions to international historiographical debates Thought provoking and thoroughly researched

explores reader responses to all the seemingly random irrelevant pointless and derailing elements that comprise these mega novels elements that he labels cruft after the computer science term for junk code In *The Cruft of Fiction* Letzler suggests that these books are useful tools to help us understand the relationship between reading and attention While mega novel text is often intricately meaningful or experimental sometimes it is just excessive and pointless On the other hand mega novels also contain text that though appearing to be cruft turns out to be quite important Letzler posits that this cruft requires readers to develop a sophisticated method of attentional modulation allowing one to subtly distinguish between text requiring focused attention and text that must be skimmed or even skipped to avoid processing failures *The Cruft of Fiction* shows how the attentional maturation prompted by reading mega novels can help manage the information overload that increasingly characterizes contemporary life
