Savage Appetites Rachel Monroe, 2020-07-07 A necessary and brilliant NPR exploration of our cultural fascination with true crime told through four enthralling The New York Times Book Review narratives of obsession In Savage Appetites Rachel Monroe links four criminal roles Detective Victim Defender and Killer to four true stories about women driven by obsession From a frustrated and brilliant heiress crafting crime scene dollhouses to a young woman who

became part of a Manson victim's family from a landscape architect in love with a convicted murderer to a Columbine fangirl who planned her own mass shooting these women are alternately mesmerizing, horrifying and sympathetic. A revealing study of women's complicated relationship with true crime and the fear and desire it can inspire together these stories provide a window into why many women are drawn to crime narratives even as they also recoil from them. Monroe uses these four cases to trace the history of American crime through the growth of forensic science, the evolving role of victims, the Satanic Panic, the rise of online detectives and the long shadow of the Columbine shooting. Combining personal narrative, reportage and a sociological examination of violence and media in the 20th and 21st centuries, *Savage Appetites* is a corrective to the genre it interrogates. The New Statesman scrupulously exploring empathy, justice and the persistent appeal of crime. The American Penal System Helen Clarke Molanphy, 2022-05-05. This thoughtful examination of incarceration in the United States from the 1980s to the current time offers for consideration a transparent and humane correctional model for the future. Author Helen Clarke Molanphy employs an interdisciplinary approach encompassing sociology, penology, memoir, philosophy and history. Featuring the work of researchers as well as penal theorists of the Enlightenment era, literati who have written about crime and punishment, inmates, social justice activists and journalists, the author incorporates first-hand interviews with participants in the landmark *Ruiz v. Estelle* lawsuit which found incarceration in the Texas Department of Corrections to be cruel and unusual punishment in violation of the Eighth Amendment. Synthesizing lessons learned from years of studying the American prison system through contact with inmates, correctional authorities, legislators and prisoner advocates, Molanphy offers a narrative of crime and punishment, degradation and dehumanization but with hope pointing to future correctional reforms. The book not only catalogs human rights abuses and the pain inflicted by corrupt penal systems but also provides a roadmap for an enlightened society to conceive of ways to reduce mass incarceration and provide humane treatment of inmates. This reflective survey of the pervasive issues that afflict the prison industrial complex offers a compelling analysis of the past and possible future of the US penal system for students of criminal justice, corrections, penology and the sociology of punishment. **The Light Fantastic** Sarah Combs, 2016-09-13.
