leaders can ease the way for those who depend on them for support and encouragement People are the only true agents in a business or organization All assets whether tangible or intangible are the result of human actions Therefore it is essential that people in organizations experience high levels of commitment to their work and value relationships and respect These are fundamental requirements if rapid timely and comprehensive information is to flow to the decision points within the organization in productive and sustainable ways This book places people at the centre of the organization working within the theoretical framework of complex adaptive systems and shows how and why it works to create wealth and dignity Organizational Jazz symbolically represents the joining of the certain with the uncertain creating an environment for innovation and performance

Organisation and Complexity Jacco van Uden, 2004-05 Students of organisation have used complexity theory in many different ways and for many different reasons What characterises the writings of most management thinkers however is that the authors are primarily concerned with the question of how to make this complexity thing work for us This study takes a rather different approach Ideas and concepts of the science of complexity are borrowed to develop the idea that organisations live lives of their own an idea that is very much at odds with the dominant view that understands organisations as tools that we use to realise certain goals To illustrate matters the book discusses the developments of the organisation of Vitesse a mediocre Dutch professional football club that according to its president needed to be transformed into a major player in the family entertainment industry
