Life On The Ice No One Goes To Antarctica Alone:

Life on the Ice Roff Martin Smith, 2005 The author of *Cold Beer* and *Crocodiles* now takes readers on a fascinating trek across the icy plains of the coldest and most remote edge of the world *Hoosh* Jason C. Anthony, 2012-11-01 Antarctica the last place on Earth is not famous for its cuisine Yet it is famous for stories of heroic expeditions in which hunger was the one spice everyone carried At the dawn of Antarctic cuisine cooks improvised under inconceivable hardships castaways ate seal blubber and penguin breasts while fantasizing about illustrious feasts and men seeking the South Pole stretched their rations to the breaking point Today Antarctica's kitchens still wait for provisions at the far end of the planet's longest supply chain Scientific research stations serve up cafeteria fare that often offers more sustenance than style Jason C Anthony a veteran of eight seasons in the U S Antarctic Program offers a rare workaday look at the importance of food in Antarctic history and culture Anthony's tour of Antarctic cuisine takes us from hoosh a porridge of meat fat and melted snow often thickened with crushed biscuit and the scurvy ridden expeditions of Shackleton and Scott through the twentieth century to his own preplanned three hundred meals plus snacks for a two person camp in the Transantarctic Mountains The stories in *Hoosh* are linked by the ingenuity good humor and indifference to gruel that make Anthony's tale as entertaining as it is enlightening

Alone on the Ice: The Greatest Survival Story in the History of Exploration David Roberts, 2013-01-28 Describes the epic journey undertaken by Douglas Mawson who suffered starvation the loss of his team and a crippling foot injury as he resorted to crawling back to base camp during the Australasian Antarctic Expedition of 1913

Alone on the Ice David Roberts, 2013-01-21 Gripping and superb This book will steal the night from you Laurence Gonzales author of *Deep Survival* On January 17 1913 alone and near starvation Douglas Mawson leader of the Australasian Antarctic Expedition was hauling a sledge to get back to base camp The dogs were gone Now Mawson himself plunged through a snow bridge dangling over an abyss by the sledge harness A line of poetry gave him the will to haul himself back to the surface Mawson was sometimes reduced to crawling and one night he discovered that the soles of his feet had completely detached from the flesh beneath On February 8 when he staggered back to base his features unrecognizably skeletal the first teammate to reach him blurted out Which one are you This thrilling and almost unbelievable account establishes Mawson in his rightful place as one of the greatest polar explorers and expedition leaders It is illustrated by a trove of Frank Hurley's famous Antarctic photographs many never before published in the United States

Alone in Antarctica Felicity Aston,2014-10-14 In the whirling noise of our advancing technological age we are seemingly never alone never out of touch with the barrage of electronic data and information Felicity Aston physicist and meteorologist took two months off from all human contact as she became the first woman and only the third person in history to ski across the entire continent of Antarctica alone She did it too with the simple apparatus of cross country without the aids used by her predececessors two Norwegian men each of whom employed either parasails or kites Aston s journey across the ice at the bottom of the world asked of her the extremes in terms of mental and physical bravery as she faced the risks of

unseen cracks buried in the snow so large they might engulf her and hypothermia due to brutalizing weather She had to deal too with her emotional vulnerability in face of the constant bombardment of hallucinations brought on by the vast sea of whiteness the lack of stimulation to her senses as she faced what is tantamount to a form of solitary confinement Like Cheryl Strayed's *Wild* Felicity Aston's *Alone in Antarctica* becomes an inspirational saga of one woman's battle through fear and loneliness as she honestly confronts both the physical challenges of her adventure as well as her own human vulnerabilities

Fifteen Million Years in Antarctica Rebecca Priestley, 2019-10-24 Rebecca Priestley longs to be in Antarctica But it is also the last place on Earth she wants to go In 2011 Priestley visits the wide white continent for the first time on a trip that coincides with the centenary of Robert Falcon Scott's fateful trek to the South Pole For Priestley 2011 is the fulfilment of a dream that took root in a childhood full of books art and science and grew stronger during her time as a geology student in the 1980s She is to travel south twice more spending time with Antarctic scientists and the kind that clouds our thoughts of how our world will be for our children Writing against the backdrop of Trump's America extreme weather events and scientists' projections for Earth's climate she grapples with the truths we need to tell ourselves as we stand on a tightrope between hope for the planet and catastrophic change *Fifteen Million Years in Antarctica* offers a deeply personal tour of a place in which a person can feel like an outsider in more ways than one With generosity and candour Priestley reflects on what Antarctica can tell us about Earth's future and asks do people even belong in this fragile otherworldly place **Library**
