fascinating Steve Wright BBC Radio 2 Have you ever forgotten the name of someone you've met dozens of times Or discovered that your memory of an important event was completely different from everyone else's Or vividly recalled being in a particular place at a particular time only to discover later that you couldn't possibly have been We rely on our memories every day of our lives They make us who we are And yet the truth is they are far from being the accurate record of the past we like to think they are In *The Memory Illusion* forensic psychologist and memory expert Dr Julia Shaw draws on the latest research to show why our memories so often play tricks on us and how if we understand their fallibility we can actually
