Dostoevsky's Secrets Carol Apollonio Flath, 2009-01-14 When Fyodor Dostoevsky proclaims that he is a realist in a higher sense it is because the facts are irrelevant to his truth And it is in this spirit that Apollonio approaches Dostoevsky's work reading through the facts the text of his canonical novels for the deeper truth that they distort mask and ultimately disclose This sort of reading against the grain is Apollonio suggests precisely what these works with their emphasis on the hidden and the private and their narrative reliance on secrecy and slander demand In each work Apollonio focuses on one character or theme caught in the compromising self serving or distorting narrative lens Who she asks really exploits whom in Poor Folk Does White Nights ever escape the dream state What is actually lost and what is won in The Gambler Is Svidrigailov of such ill repute in Crime and Punishment in fact an exemplar of generosity and truth Who in Demons is truly demonic Here we see how Dostoevsky has crafted his novels to help us see these distorting filters and develop the critical skills to resist their anaesthetic effect Apollonio's readings show how Dostoevsky's paradoxes counter and usurp our comfortable assumptions about the way the world is and offer access to a deeper immanent essence His works gain power when we read beyond the primitive logic of external appearances and recognize the deeper life of the text **High-Stakes**

Leadership Constance Dierickx, 2017-09-22 What makes some leaders so effective when the stakes are high while others fall short Why are some able to not only survive but to lead their organizations to new heights even in risky fast changing times The answer is succinct but multi layered such leaders display courage judgment and fortitude High stakes leadership does not require unnatural powers nor is it predicated on a dangerous situation The three signature character traits can be cultivated by anyone at any level in any organization big or small Organizational and leadership consultant Constance Dierickx describes high stakes leadership in a simple three part model that illuminates the mindsets strategies and tactics leaders must draw upon to make tough decisions take an unpopular stand or ignore convention providing real world examples across a range of sectors and industries Dierickx developed her model of high stakes leadership to help her clients executives at organizations ranging from start ups to nonprofits to large global companies better define what they need to bring strategy to life This she found is the great gulf in business the vast space between idea and results High Stakes Leadership helps leaders sharpen their ability to act decisively with clarity and focus test ideas using reason and course correct as needed be resolute and inspire others to continue even in the face of challenges Leading requires the courage to make conscious decisions about what to do the judgment to separate information from short term trends and the fortitude to remain true to oneself and one's mission When leaders do these things they also become teachers leading their teams by example often without realizing it The essential aspects of good leadership endure even as the environment and tactics change Indeed courage judgment and fortitude are not merely tools for survival they are the means by which we sculpt the future **The Bookman**, 1915 **Classics in Post-Colonial Worlds** Lorna Hardwick, Carol Gillespie, 2007-10-11 Classical
