Lost Lore A Celebration Of Traditional Wisdom:

Lost Lore Una McGovern, Paul Jenner, 2009 Pays tribute to the knowledge that earlier generations learned through tradition folklore and superstitions by offering solutions to situations ranging from first aid and socializing to food preservation and wilderness survival **A Conflict of Self Interest** Adrian A. Hankey, 2016-08-02 Self or Soul is an essential energy centred in every living body and is about instinct species survival and coexistence with all other Life It is not a belief nor any part of Brain Brain is the natural manager of the body in which Soul exists The natural function of Brain is to facilitate Soul purpose throughout Life Brain copies or creates beliefs to make everything true or real and with memory and logic it creates time space knowledge and world Educated Brain tends to deny Self and so creates a greater need for entertainment exploration pets and more Civilization is run entirely by Brains But that complex process has yet to run for more than a few hundred years without final disaster The only peoples who have survived for millenia have done so by depending consistently upon Self family home legend lore wisdom and heritage most of which are presently being civilly disrespected and ignored No belief of science psychology or religion can ever explain or replace any of these On this finite planet population increase has become too serious to ignore Natural increase seems due mostly to cultural stress and ageing But serious unnatural population increase is now due to religiously enforced non birth control amongst poor and ignorant people Greedy corporations and developers also encourage population expansion which will ultimately cause the collapse of people species For survival of people species the current civil process must accept a more localized traditional and cultural Wisdom not based upon nor necessarily denying science or religion **The British National Bibliography** Arthur James Wells, 2009 *The Wisdom of Jesus* Charles W. Hedrick, 2014-11-07 How would the image of Jesus appear if it were based only on sayings that scholars generally agreed originated with Jesus And how would the wisdom of Jesus reflected in those few sayings compare to the wisdom of the sages of ancient Israel and the apostles of the early first century church To answer such questions historians face serious difficulties Everything we know about Jesus comes from what later writers thought about him none of the things they claimed he said came directly from him Everything in the early Christian gospels is either derived from historical memory or is borrowed or invented Hedrick claims Even those few sayings receiving near universal agreement from historians as sayings of Jesus can only be affirmed as probable rather than certain The aim of this study is to allow Jesus to speak for himself directly to readers as nearly as possible in his own words without the theological explanations of his interpreters The resulting image of Jesus that emerges is a complex picture of a first century lower class man who was not religious in a traditional sense His discourse was the language of the secular world and addressed issues of common life *The Wisdom of the Chinese Kitchen* Grace Young, 2014-07-01 The Wisdom of the Chinese Kitchen with its 150 recipes culled from a lifetime of family meals and culinary instruction is much more than a cookbook The Wisdom of the Chinese Kitchen is a daughter s tribute a collection of personal memories of the philosophy and superstitions behind culinary

traditions that have been passed down through her Cantonese family in which each ingredient has its own singular importance the preparation of a meal is part of the joy of life and the proper creation of a dish can have a favorable influence on health and good fortune Each chapter begins with its own engaging story offering insight into the Chinese beliefs that surround life enhancing and spiritually calming meals In addition personal family photographs illustrate these stories and capture the spirit of China before the Revolution when Young s family lived in Canton Shanghai and Hong Kong The first part Mastering the Fundamentals provides instruction on the arts of steaming and stir frying the preparation of rice panfried and braised dishes the proper selection of produce and the fine arts of chopping and slicing Part Two The Art of Celebration concentrates on the more elaborate complex and meaningful dishes such as Shark s Fin Soup and West Lake Duck that are usually made with rare ingredients and sweets such as Water Chestnut Cake and Sesame Balls The final part Achieving Yin Yang Harmony explores the many Chinese beliefs about the healing properties of ginseng ginkgo nuts soybeans dong quai and the many vegetable and fruit soup preparations that balance and nourish the body The stories and recipes combine to demonstrate the range of Cantonese cooking from rich flavors and honored combinations to an overall appreciation of health well being and prosperity In addition to the recipes Young provides a complete glossary of dried herbs spices and fresh produce accompanied by identifying photos and tips on where to purchase them Unique traditional dishes such as Savory Rice Tamales and Shrimp Dumplings are also illustrated step by step making the book easy to use The central full color photo section captures details of New Year s dishes and the Chinese home decorated in celebration reminding one that these time honored traditions live on and the meals and their creation are connections to the past
