variety of global and historical contexts through case studies that center art and visual and material culture. The authors show how art and aesthetics have operated as tools of empire. Interpreting a comprehensive array of media as well as intermedia dialogues, they analyze and intervene in how we remember and examine entwinements between empire and aesthetic practices. In this volume's attention to the role of art in imperial formation as well as the legacy of colonization, the essays disentangle sediments of culture as they are moved and shaped by homogenizing forces of empire, showing that the aesthetics of empire inflect not only individuals, makers, and economies but also practices of circulation and collecting. The book will be of interest to graduate students, researchers, and professors and may be used in classes focused on art history, imperialism, and colonialism.
