The Encyclopedia of Epic Films Constantine Santas, James M. Wilson, Maria Colavito, Djoyimi Baker, 2014-03-21

Soon after film came into existence the term epic was used to describe productions that were lengthy, spectacular, live with action and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence its central elements have been retained, refined and modernized to suit the tastes of every new generation. *The Encyclopedia of Epic Films* identifies, describes and analyzes those films that meet the criteria of the epic: sweeping drama, panoramic landscapes, lengthy adventure sequences and in many cases casts of thousands. This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D.W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains: Major personnel behind the camera including directors and screenwriters; Cast and character listings; Plot summary; Analysis; Academy Award wins and nominations; DVD and Blu-ray availability; Resources for further study. This volume also includes appendixes of foreign epics, superhero spectaculars and epics produced for television along with a list of all the directors in the book. Despite a lack of overall critical recognition and respect as a genre, the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters. *The Encyclopedia of Epic Films* will be of interest to academics and scholars as well as any fan of films made on a grand scale.

The Friend Samuel Chenery Damon, 1906 *Just Add Water* Clay Marzo, Robert Yehling, 2015

From the best freestyle surfer in the world an inspiring and moving memoir about his ascendance to the top of the surfing world while struggling for most of his young life with undiagnosed Asperger's syndrome. Clay Marzo has an almost preternatural gift with a surfboard. From his first moments underwater he learned to swim at two months old.

to his first ventures atop his father's surfboard as a toddler it was obvious that Marzo's single minded focus on all things surfing was unique But not until late in his teens when this surfing phenom was diagnosed with Asperger's syndrome did the deeper reasons for his obsession and his astonishing gift for surfing become clear Just Add Water is the remarkable story of Marzo's rise to the top of the pro surfing world and the personal trials he overcame in making it there Marzo endured a difficult childhood He was a colicky baby who his mother found could be soothed only with water Later as he entered school his undiagnosed Asperger's made it tough for him to relate to his peers and fit in but his relationship with the wave was elemental Marzo could always turn to surfing the only place where he truly felt at peace Unflinching and inspiring Just Add Water is a brave memoir from a one of a kind surfing savant who has electrified fans around the world with his gift and whose story speaks boldly to the hope and ultimate triumph of the human spirit
