Guided Revolution Threatens The French King Answers:

Thomas Paine and the French Revolution Carine Lounissi, 2018-06-12 This book explores Thomas Paine's French decade from the publication of the first part of *Rights of Man* in the spring of 1791 to his return trip to the United States in the fall of 1802. It examines Paine's multifarious activities during this period as a thinker, writer, member of the French Convention, lobbyist, adviser to French governments, officious diplomat, and propagandist. Using previously neglected sources and archival material, Carine Lounissi demonstrates both how his republicanism was challenged, bolstered, and altered by this French experience and how his positions at key moments of the history of the French experiment forced major participants in the Revolution to defend or question the kind of regime or of republic they wished to set up. As a member of the Lafayette circle when writing the manuscript of *Rights of Man* of the Girondin constellation in the Convention, one of the few democrats who defended universal suffrage after Thermidor, and as a member of the Constitutional Circle which promoted a kind of republic which did not match his ideas, Paine baffled his contemporaries and still puzzles the present-day scholar. This book intends to offer a new perspective on Paine and on how this major agent of revolutions contributed to the debate on the French Revolution both in France and outside France.

Supercommunity E-Flux, 2017-12-05 Leading artists, theorists, and writers exhume the dystopian and utopian futures contained within the present. I am the supercommunity and you are only starting to recognize me. I grew out of something that used to be humanity. Some have compared me to angry crowds in public squares; others compare me to wind and atmosphere or to software. Invited to exhibit at the 56th Venice Biennale, e-flux journal produced a single issue over a four-month span publishing an article a day, both online and on site from Venice. In essays, poems, short stories, and plays, artists and theorists trace the negative collective that is the subject of contemporary life in which art, the internet, and globalization have shed their utopian guises but persist as naked power in the face of apocalyptic ecological disaster and against the claims of the social commons. I convert care to cruelty and cruelty back to care. I convert political desires to economic flows and data, and then I convert them back again. I convert revolutions to revelations. I don't want security. I want to leave and then disperse myself everywhere and all the time.
