## The Fourteen Ideas

Beauty	Courage
Equity	Freedom
Goodness	Grace
Generosity	Hope
Justice	Truth
Warfare	Wisdom
Glory & Honor	Change

In his famous work, *The Great Map*, Maurice J. Adams discusses the importance of relating stories of literature to the great ideas and philosophies of Western culture. In order for a reader to comprehend cultural progress and the progress of history, the reader must understand the great ideas behind the stories of literature as well as the motivation for events of history. By applying a reader with a selected idea such as beauty, truth, or goodness, the writer of a study guide facilitates the reader's understanding of the author's purpose in writing.

In Christy Clark's declaration of "It is good" is more than a conclusion for the completion of the work of the day. This declarative statement was in the time of goodness and completion. Thus, with this phrase that is used, was expected to judge his own goodness by the judgment that pronounced on the new creation. For a man to declare his own work to be good, it must follow the criteria and standards of the Creator in the beginning. Therefore, the reader is asked to read the phrase that standards by which authors or work must live a work.

## About the Book

*"Paul Revere's midnight ride... Washington crossing the Delaware... the winter crisis at Valley Forge... some events of America's War for Independence are almost as well known as the others, just as dramatic, that seem to have been lost in the dusty pages of history." Thus begins the introduction to Guns for General Washington.*

This story is one of those incredible tales that seems to have been labeled as less important than some of the other events of the American Revolution. But the events in this story were key to the American's success. It follows the story of Henry Knox and his younger brother William, as they travel from Cambridge, Massachusetts, to Fort Mifflin to bring back artillery for General Washington's troops.

The army is running dangerously low on all of their food and supplies; but even if they had enough gunpowder and there was supply, the army, they would not be able to drive the British from Boston. For that, they need artillery. Thus Henry devises a crossing plan to trek across hundreds of miles of dangerous mountain trails and face wretched

weather to bring back cannons, mortars, and other weapons of war back to Cambridge. If the two Knox brothers fail in their endeavor, the colonies might lose their courageous fight against the British. The fate of American independence rests in their young hands.
