Haastrecht Hoofdstukken Uit Ontstaan En Ontwikkeling Van Haastrecht:

Historical research in the Low Countries 1970-1975 Alice C. Carter, 2024-09-16 The five review articles included in this volume were produced by the Dutch History Seminar of the University of London with the assistance of several Belgian and Dutch historians They first appeared in the volumes VI X of the *Acta Historiae Neerlandicae* in 1978 renamed The Low Countries History Yearbook a periodical published by the Dutch Historical Society with the objective of bringing new publications on the history of the Low Countries in the Dutch language to the attention of English speaking historians These articles have been republished and provided with indexes in the hope that in this form they will also prove to be useful to students of Belgian and Dutch history who have not been regular readers of the *Acta* Should this publication be favourably received a subsequent volume covering the years 1976 1981 may be issued

THE EDITORS VII Survey of recent Dutch Historiography ALICE C CARTER Editor INTRODUCTION This bibliographical article has been put together by members of the Dutch history seminar held at London University's Institute of Historical Research The article is intended for non Dutch reading scholars and indeed all who are interested in Netherlands history An attempt has been made and will continue to be made to survey important works published in the year previous to that in which the article is drawn up This year we have concerned ourselves with books or in the earlier part of 1971

Acta Historiae Neerlandicae IX R. Baetens, H. Balthazar, H. Van Dijk, Rosemary Duke, P. J. Van Kessel, D. J. Roorda, Nicolette Van Santen-Mout, E. Stols, K. W. Swart, B. A. Sijes, C. A. Tamse, 2012-12-06 In the Survey of Recent Historical Works which according to custom concludes this IXth volume of the *Acta* is a notice of the recent Report of the Dutch research with suggestions for future development Such a report could easily be classified as an attempt to bring pressure to bear on financial resources for support of a somewhat neglected branch of scientific effort indeed as a symptom of the current disease of notatitis A recent special issue *Regeren door notas* of the periodical *Beleid en Maatschappij* March April 1976 discusses this severe Dutch epidemic of official note writing for any purpose on any matter at any time by any sort of official committee to any sort of official body But even if such were the only reason for the production of this Report which indeed it is not the Report will stand on its own feet as significant and of consequence In general however this Report makes sad reading It would seem that Dutch historical research and historiography lags far behind comparable foreign developments There are said to be immense gaps in knowledge of and insight into virtually all fields of the Dutch past and moreover a total lack of modern sophistication Inevitably currently fashionable techniques such as programming co ordination and teamwork are suggested as desirable and a preference is expressed for the currently highly regarded socio historical approach
