

ECON1002-Introductory Macroeconomics

Lecture 1- Measuring Economic Output

What is Economics all about?

- Why do people, firms and governments behave the way they do?
- How does this behavior impact on the economy, individuals, the environment?
- Macroeconomics and microeconomics

Microeconomics

- Studies decision-making by individual economic agents:
 - When does it make sense for one firm to merge with or take-over another?
 - How does a firm whether or not to enter a new market?
 - Should Australia join free trade agreements?

Macroeconomics

- Studies the aggregate impact of individual decisions:
 - What determines interest rates and exchange rates? How are they linked?
 - What determines a country's rate of economic growth and aggregate unemployment rate?
 - How will global warming (and government policy responses to this issue) impact on the Australian economy?
- Microeconomics provides a foundation for macroeconomics

Uses of Macroeconomics

- As a tool for prediction
- To understand crises and recessions
- To identify policy responses

Limits of macroeconomics

- Theoretical models are an imperfect capture of reality.

Introductory Macroeconomics Study Guide
