Invented Edens Robert H. Kargon, Arthur P. Molella, 2008-07-11 Tracing the design of techno cities that blend the technological and the pastoral Industrialization created cities of Dickensian squalor that were crowded smoky dirty and disease ridden By the beginning of the twentieth century urban visionaries were looking for ways to improve both living and working conditions in industrial cities In *Invented Edens* Robert Kargon and Arthur Molella trace the arc of one form of urban design which they term the techno city a planned city developed in conjunction with large industrial or technological enterprises blending the technological and the pastoral the mill town and the garden city Techno cities of the twentieth century range from factory towns in Mussolini's Italy to the Disney creation of Celebration Florida Kargon and Molella show that the techno city represents an experiment in integrating modern technology into the world of ideal life Techno cities mirror society's understanding of current technologies and at the same time seek to regain the lost virtues of the edenic pre industrial village The idea of the techno city transcended ideologies crossed national borders and spanned the entire twentieth century Kargon and Molella map the concept through a series of exemplars These include Norris Tennessee home to the Tennessee Valley Authority Torviscosa Italy built by Italy's Fascist government to accommodate synthetic textile manufacturing and featured in an early short by Michelangelo Antonioni Ciudad Guayana Venezuela planned by a team from MIT and Harvard and finally Disney's Celebration perhaps the ultimate techno city a fantasy city reflecting an era in which virtual experiences are rapidly replacing actual ones

Invented Eden Robin Hemley, 2019-06-14 In 1971 Manuel Elizalde a Philippine government minister with a dubious background discovered a band of twenty six Stone Age rain forest dwellers living in total isolation The tribe was soon featured in American newscasts and graced the cover of National Geographic But after a series of aborted anthropological ventures the Tasaday Reserve established by Ferdinand Marcos was closed to visitors and the tribe vanished from public view Twelve years later a Swiss reporter hiked into the area and discovered that the Tasaday were actually farmers whom Elizalde had coerced into dressing in leaves and posing with stone tools The anthropological find of the century had become the ethnographic hoax of the century Or maybe not Robin Hemley tells a story that is more complex than either the hoax proponents or the authenticity advocates might care to admit It is a gripping and ultimately tragic tale of innocence found lost and found again The author provides an afterword for this Bison Books edition
