Inventing The Christmas Tree:

Inventing the Christmas Tree Bernd Brunner, 2012-11-01 Explores the roots of the Christmas tree tradition tracing customs from the Middle Ages to the present day to reveal how it first became part of mainstream American culture and has since become popular worldwide **Christmas: Tradition, Truth and Total Baubles** Nick Page, 2020-10-29 Why is Christmas the way it is How did we get from the birth of Jesus to everyone pushing their credit card and their belts to their maximum extent Starting with the events surrounding Jesus birth this book takes us through centuries of commemoration celebration and over consumption Along the way we ll find out why we eat turkey how an obscure Turkish saint turned into a man flying a sleigh and why that tree in your house should really contain an apple and a snake Combining in depth historical research cheerfully irreverent humour and cutting edge guesswork Nick Page explores what this festival really means and how we can get back to something real and true beneath all that wrapping *How Christmas Became Christmas* Nathaniel

Parry, 2022-10-31 In some respects the contrasts of Christmas are what make it the most delightful time of the year It is a time of generosity kindness and peace on earth with broad permission to indulge in food drink and gifts On the other hand Christmas has become a battleground for raging culture wars marred by debates about how it should be celebrated and acknowledged as a uniquely Christian holiday This text argues that much of the animosity is based on a fundamental misunderstanding of the holiday s core character By tracing Christmas s origins as a pagan celebration of the winter solstice and its development in Europe s Christianization this history explains that the true reason for the season has as much to do with the earth s movement around the sun as with the birth of Christ Chapters chronicle how Christmas s magic and misrule link to the nativity and why the carnival side of the holiday appears so separated from traditional Christian beliefs

Master of the Two Left Feet Richard Meyer, 2022-09-13 An account of the life and work of a once famous self taught American artist of the 1940s and a study of how artists go missing from public memory The exhibition Morris Hirshfield Rediscovered at the American Folk Art Museum in New York City curated by the author and developed as an extension of the book is on view from September 22 2022 to January 27 2023 A garment worker and slipper manufacturer with no training in art Morris Hirshfield was never expected to make history Against all odds his wildly stylized paintings of female figures often nude animals and landscapes became internationally known in the 1940s Admired by Pablo Picasso Piet Mondrian and the French surrealists his peak moment of visibility occurred in 1943 when the Museum of Modern Art mounted a one man show of his work The exhibition was widely reviewed though mostly reviled by the press who jeeringly crowned Hirshfield Master of the Two Left Feet for his tendency to display the female body in that unorthodox fashion After the artist's death in 1946 his work was largely forgotten but in *Master of the Two Left Feet* art historian Richard Meyer rediscovers Hirshfield for twenty first century audiences offering full color reproductions that capture the vibrant imagination and sheer visual pleasure of Hirshfield's paintings The book also features a catalog of works compiled by curator Susan Davidson which provides the most comprehensive documentation of the artist's work ever assembled Ten years in the making *Master of the Two Left Feet* presents Hirshfield's unlikely career as a painter not only as a missing episode in the history of twentieth century art but as a case study of the ways in which artists go missing from historical knowledge and public memory By looking closely at Hirshfield and his milieu in 1940s Brooklyn Meyer demonstrates how much we have yet to learn and to see of the visual past

Inventing Catholic Tradition Terrence W. Tilley, 2011-06-07 This creative argument that traditions are neither found nor made but are invented and reinvented in practice is carried out in dialogue with scholars such as Yves Congar and George Lindbeck Tilley examines the actual practices as the bearers of

tradition and argues that vibrant and meaningful traditions must be reinvented or reconstructed in every generation He demonstrates how deliberately invented or imposed traditions are often resisted Tilley applies his analysis to the Catholic Intellectual Tradition and in the last chapter shows how truth revelation and authority can be accommodated by a constructivist practical theology of tradition
