## **Investment Adviser Regulation In A Nutshell:**

*Investment Adviser Regulation in a Nutshell* Jeffrey J. Haas, Steven R. Howard (J.D.), 2008 Softbound New softbound print book

**Regulating Investor Protection under EU Law** Antonio Marcacci, 2018-06-27 This book analyzes the legal system for the protection of retail investors under the European Union law of investment services. It identifies the regulatory leitmotiv driving the EU lawmaker and ascertains whether and to what extent such a system is self-sufficient using a set of EU-made and EU-enforced rules that is essentially different and autonomous from the domestic legal orders. In this regard, the book takes a double perspective: comparative and intra-firm. Given the federal dimension of the US legal system and thus the role model it plays vis-à-vis the EU, the book compares the two systems. To fully highlight the existing gaps and measure how self-sufficient the EU system is against its American counterpart, the Union Federal level as such is analyzed in a detached manner from the national level in EU terms and State level in US terms. *Regulating Investor Protection under EU Law* also showcases the unique intra-firm perspective from a European investment firm and analyzes how EU-produced public law rules become a set of compliance requirements for investment services providers. This within-the-firm angle gauges the self-sufficiency of the EU system of retail investor protection from the standpoint of an EU-regulated entity. The book is intended for both compliance professionals and academic scholars interested in this topic while also including illustrative sections intended to provide a broader regulatory view for less experienced readers.

**The Place of Law** Larry Barnett, 2017-09-08 In this stimulating volume, Larry D. Barnett locates a fundamental defect in widespread assumptions regarding the institution of law. He asserts that scholarship on law is being led astray by currently accepted beliefs about the institution and as a result, progress in understanding law as a societal institution will be impeded until a more accurate view of law is accepted. This book takes on this challenge. *The Place of Law* addresses two questions that are at the heart of the institution of law: Why is law an evidently universal, enduring institution in societies characterized by a relatively high level of economic development and a relatively high degree of social complexity? And why do the concepts and doctrines of the institution of law differ between jurisdictions, states, or nations at one point in time and vary within a particular jurisdiction over time? These two questions, Barnett believes, should be prominent in any study of law. The framework for law, Barnett proposes, is concerned with activities that are fundamental aspects of social organization that are deeply embedded in social life. His viewpoint is grounded on a body of quantitative research pertinent to the societal sources and limits of law. Barnett argues that this perspective applies only to law in sovereign democratic nations that are economically advanced and socially complex. In other environments, law's place as a societal institution is less secure. This innovative perspective will do much to enhance understanding and appreciation of the role of law in modern societies.
