Koeth,2025-08-19 How suburbanization was a crucial catalyst for reforms in the Catholic Church The 1960s in America were a time of revolt against the stifling conformism embodied in the sprawling uniform suburbs of the 1950s Typically the reforms of the Catholic Church's Second Vatican Council which aimed to make the Church more modern and accessible are

seen as one result of that broader cultural liberalization Yet in Crabgrass Catholicism Stephen M Koeth demonstrates that the liberalization of the Church was instead the product of the mass suburbanization that began some fifteen years earlier Koeth argues that postwar suburbanization revolutionized the Catholic parish the relationship between clergy and laity conceptions of parochial education and Catholic participation in US politics and thereby was a significant factor in the religious disaffiliation that only accelerated in subsequent decades A novel exploration of the role of Catholics in postwar suburbanization Crabgrass Catholicism will be of particular interest to urban historians scholars of American Catholicism and religious studies and Catholic clergy and laity

What Parish Are You From? Eileen M. McMahon, 2021-12-14 For Irish Americans as well as for Chicago's other ethnic groups the local parish once formed the nucleus of daily life Focusing on the parish of St Sabina's in the southwest Chicago neighborhood of Auburn Gresham Eileen McMahon takes a penetrating look at the response of Catholic ethnics to life in twentieth century America She reveals the role the parish church played in achieving a cohesive and vital ethnic neighborhood and shows how ethno religious distinctions gave way to racial differences as a central point of identity and conflict For most of this century the parish served as an important mechanism for helping Irish Catholics cope with a dominant Protestant American culture Anti Catholicism in the society at large contributed to dependency on parishes and to a desire for separateness from the American mainstream As much as Catholics may have wanted to insulate themselves in their parish communities however Chicago demographics and the fluid nature of the larger society made this ultimately impossible Despite efforts at integration attempted by St Sabina's liberal clergy white parishioners viewed black migration into their neighborhood as a threat to their way of life and resisted it even as they relocated to the suburbs The transition from white to black neighborhoods and parishes is a major theme of twentieth century urban history The experience of St Sabina's which changed from a predominantly Irish parish to a vibrant African American Catholic community provides insights into this social trend and suggests how the interplay between faith and ethnicity contributes to a resistance to change
