In their analyses of material ranging from photographs of plantation laborers and landscape paintings to cricket team photographs, furniture and architecture as well as a wide range of texts, the contributors trace the relationship between black Jamaicans and colonial institutions, contextualize race within ritual and performance, and outline how material and visual culture helped shape the complex politics of colonial society. By narrating Victorian history from a Caribbean perspective, this richly illustrated volume featuring 270 full color images offers a complex and nuanced portrait of Jamaica that expands our understanding of the wider history of the British Empire and Atlantic world during this period. Jablonski, 2020-02-25 This is the third and final group of essays emerging from the discussions of the Effects of Race Project at the Stellenbosch Institute for Advanced Study (STIAS) that occurred in 2016 and 2017. The authors consider the biological and social understandings of race and how new information from both the biological and social sciences is changing our perspective on the nature of the human condition, including the association of biological and social phenomena with race. They also look at global events or movements which influence these processes in South Africa and the costs of a racialised world order to humans and humanity. Phenomena are examined through the lenses of many disciplines: sociology, history, geography, anthropology, and writing **Making The Black Jacobins** Rachel Douglas, 2019-09-27 C. L. R. James's *The Black Jacobins* remains one of the great works of the twentieth century and the cornerstone of Haitian revolutionary studies. In *Making The Black Jacobins*, Rachel Douglas traces the genesis, transformation, and afterlives of James's landmark work across the decades from the 1930s on. Examining the 1938 and 1963 editions of *The Black Jacobins*, the 1967 play of the same name, and James's 1936 play *Toussaint Louverture* as well as manuscripts, notes, interviews, and other texts, Douglas shows how James continuously rewrote and revised his history of the Haitian Revolution as his politics and engagement with Marxism evolved. She also points to the vital significance theater played in James's work and how it influenced his views of history. Douglas shows *The Black Jacobins* to be a palimpsest, its successive layers of rewriting renewing its call to new generations Musical Migrations F. Aparicio, C. America Beyond Black and White Ronald Fernandez, 2009-05-14 This book is both powerful and important Powerful for the testimony it provides from Americans of many different and even mixed races about their experiences And important because there is a racial revolution underway that will upend race as we know it during the twenty first century John Kenneth White Catholic University of America America Beyond Black and White is a call for a new way of imagining race in America For the first time in U S history the black white dichotomy that has historically defined race and ethnicity is being challenged not by a small minority but by the fastest growing and arguably most vocal segment of the increasingly diverse American population Mexicans Chinese Japanese Koreans Indians Arabs and many more who are breaking down and recreating the very definitions of race Drawing on interviews with hundreds of Americans who don t fit conventional black white categories the author invites us to empathize with these doubles and to understand why they may represent our best chance to throw off the strictures of the black white dichotomy The revolution is already underway as newcomers and mixed race fusions refuse to engage in the prevailing Anglo Protestant culture Americans face two choices understand why these individuals think as they do or face a future that continues to define us by what divides us rather than by what unites us

Decolonial Perspectives on Entangled Inequalities Encarnación Gutiérrez Rodríguez, Rhoda Reddock, 2021-02-26 This book engages with decolonial social and cultural analyses of global entangled inequalities by focusing on their local articulations globally and in particular in Germany Trinidad and Tobago and the United Kingdom

and political context and on to questions of identity and diaspora The book begins with the voices of female practitioners and then offers a broad interdisciplinary examination of Caribbean religion and culture Afro Caribbean religions Hinduism Judaism Islam and Christianity are all addressed with specific reflections on Santer a Palo Monte Vodou Winti Obeah Kali Mai Orisha work Spiritual Baptist faith Spiritualism Rastafari Confucianism Congregationalism Pentecostalism Catholicism and liberation theology Some essays are based on fieldwork archival research and textual or linguistic analysis while others are concerned with methodological or theoretical issues Contributors include practitioners and scholars some very established in the field others with fresh new approaches all of them come from the region or have done extensive fieldwork or research there In these essays the poetic vitality of the practitioner s voice meets the attentive commitment of the postcolonial scholar in a dance of nations across the waters
