Keil,Elisabeth Alber,2021-05-13 Looking at the growing use of federalism and decentralization as tools of conflict resolution this book provides evidence from several case studies on the opportunities and challenges that territorial solutions offer when addressing internal conflicts within a variety of countries Federalism has been used as a tool of conflict resolution in a number of conflict situations around the world The results of this have been mixed at best with some countries moving slowly to the paths of peace and recovery while others have returned to violence This volume looks at a number of case studies in which federalism and decentralization have been promoted in order to bring opposing groups together and protect the

territorial integrity of different countries Yet it is demonstrated that this has been incredibly difficult and often overshadowed by wider concerns on secession de and re centralization and geopolitics and geoeconomics While federalism and decentralization might hold the key to keeping war torn countries together and bringing hostile groups to the negotiation table we nevertheless need to rethink under which conditions territorial autonomy can help to transform conflict and when it might contribute to an increase in conflict and violence Federalism alone so the key message from all contributions cannot be enough to bring peace yet without territorial solutions to ongoing violence it is also unlikely that peace will be achieved The chapters in this book were originally published as a special issue of *Ethnopolitics* **Principles and Practices of Fiscal**

of the most important and complicated issues in ethnic politics in contemporary times with the Kurds being one of the largest ethnic groups in the world without a state of their own This comprehensive volume brings together a group of distinguished scholars to address the Kurdish question in its centennial year with a fresh analytical lens to demonstrate that the study of Kurdish politics has developed beyond a narrow focus on the state minority antagonism It addresses a series of interrelated questions focusing on Kurdish politics as well as broader themes related to nationalism ethnic mobilization democratic struggles and international security The authors examine the agency of Kurdish political actors and their relations with foreign actors the relations between Kurdish political leaders and organizations and regional and great powers the dynamics and competing forms of Kurdish political rule and the involvement of Kurdish parties in broader democratic struggles Using original empirical work they place the scholarship on Kurdish politics in dialogue with the broader scholarship on ethnic nationalism self determination movements diaspora studies and rebel diplomacy This book was originally published as a special issue of the journal *Ethnopolitics* **Social Capital, Civic Engagement and Democratization in Kurdistan**

The Routledge Handbook of Ethnic Conflict Karl Cordell,Stefan Wolff,2016-01-22 A definitive global survey of the interaction of ethnicity nationalism and politics this handbook blends rigorous theoretically grounded analysis with empirically rich illustrations to provide a state of the art overview of the contemporary debates on one of the most pervasive international security challenges today Fully updated for the second edition the book includes a new section which offers detailed analyses of contemporary cases of conflict such as in Ukraine Kosovo the African Great Lakes region and in the Kurdish areas across the Middle East thus providing accessible examples that bridge the gap between theory and practice The contributors offer a 360 degree perspective on ethnic conflict from the theoretical foundations of nationalism and ethnicity to the causes and consequences of ethnic conflict and to the various strategies adopted in response to it Without privileging any specific explanation of why ethnic conflict happens at a particular place and time or why attempts at

preventing or settling it might fail or succeed The Routledge Handbook of Ethnic Conflict enables readers to gain a better insight into such defining moments in post Cold War international history as the disintegration of the Soviet Union and Yugoslavia and their respective consequences the genocide in Rwanda and the relative success of conflict settlement efforts in Northern Ireland By contributing to understanding the varied and multiple causes of ethnic conflicts and to learning from the successes and failures of their prevention and settlement the Handbook makes a powerful case that ethnic conflicts are neither unavoidable nor unresolvable but rather that they require careful analysis and thoughtful and measured responses

The Making of Foreign Policy in Iraq Zana Gulmohamad, 2021-01-14 How is foreign policy made in Iraq Based on dozens of interviews with senior officials and politicians this book provides a clear analysis of the development of domestic Iraqi politics since 2003 Zana Gulmohamad explains how the federal government of Iraq and Kurdistan Regional Government KRG have functioned and worked together since toppling Saddam to reveal in granular detail the complexity of their foreign policy making The book shows that the ruling elites and political factions in Baghdad and in the capital of the Kurdistan Region Erbil create foreign policies according to their agendas The formulation and implementation of the two governments foreign policies is to a great extent uncoordinated Yet Zana Gulmohamad places this incoherent model of foreign policy making in the context of the country s fragmented political and social context and explains how Iraq s neighbouring countries Iran Turkey Saudi Arabia and Syria before the civil war have each influenced its internal affairs The book is the first study dedicated to the contemporary dynamics of the Iraqi state outside the usual focus on the great powers and it explains exactly how Iraqi foreign policy is managed alongside the country s economic and security interests
