ART MAGENNIS

Ireland The United Nations And The Congo A Military And Diplomatic History 1960 1

**Hoover Institution on War, Revolution,
and Peace**

Ireland The United Nations And The Congo A Military And Diplomatic History 1960 1:

Ireland, the United Nations and the Congo Michael J. Kennedy, Art Magennis, 2014 In 1961 Irish UN peacekeepers went into combat in the Congolese province of Katanga. It was the Irish Defense Forces' first experience of active service since 1923. Irish diplomat Conor Cruise O'Brien headed the UN mission in Katanga. Former chief of staff of the defense forces Lt Gen Sean MacEoin was in overall command of UN troops in Congo. Irish units suffered casualties and men were taken prisoner as the fighting in Katanga continued. The crisis now facing Taoiseach Sean Lemass became the most delicate and dangerous chapter in Ireland's foreign relations since 1945. Based on a first-hand account of the fighting by an Irish cavalry officer, previously unseen UN archives and the papers of UN Secretary General Dag Hammarskjöld, this book covers 18 critical months from July 1960 to December 1961, which almost tore the UN apart and which brought the realities of UN membership to Ireland. This book is an Irish diplomatic and military perspective on a defining moment in the history of the United Nations, the Cold War, and modern Africa.

Ireland's UN Peacekeeping Policy During the Cold War Era Terry M. Mays, 2023-05-29 This is the first book to study the establishment and evolution of an Irish Peacekeeping Policy. The author uses declassified primary source materials released by the Irish National Archives and relies on the notes and discussions of Government and legislative debates to demonstrate how the Irish governmental system operated to make the crucial decisions to dispatch contingents to UN peacekeeping operations. Analysed are declassified discussion, debate, draft and final memos and cables between the UN and Irish Government as well as internal to the Irish Government. The author considers the three-step process of the political discussions between Ireland and the UN, the coordination between Ireland and other states, the discussions among members of the Irish Government, and the debate within the Irish legislature. Through this, the author aims to promote an understanding of the mechanics behind Ireland's rise in reputation as a major backer and contributor to UN peacekeeping. At the same time, it presents an examination of a unique codified state process related to agreeing to the dispatch of personnel in support of UN peacekeeping.

The Lumumba Plot Stuart A. Reid, 2024-11-05 The New York Times Book Review Editors' Choice. A spellbinding work of history that reads like a Cold War spy thriller about the US-sanctioned plot to assassinate the democratically elected leader of the newly independent Congo. A BEST BOOK OF THE YEAR. The New Yorker, The Economist, Financial Times. This is one of the best books I have read in years, gripping, full of colorful characters and strange plot twists. Fareed Zakaria, CNN host. It was supposed to be a moment of great optimism, a cause for jubilation. The Congo was at last being set free from Belgium, one of seventeen countries to gain independence in 1960 from ruling European powers. At the helm as prime minister was charismatic nationalist Patrice Lumumba. Just days after the handover, however, the Congo's new army mutinied. Belgian forces intervened, and Lumumba turned to the United Nations for help in saving his newborn nation from what the press was already calling the Congo crisis. Dag Hammarskjöld, the Swedish Swede serving as UN secretary general, quickly arranged the organization's biggest peacekeeping mission in history.

But chaos was still spreading Frustrated with the fecklessness of the UN and spurned by the United States Lumumba then approached the Soviets for help an appeal that set off alarm bells at the CIA To forestall the spread of Communism in Africa the CIA sent word to its station chief in the Congo Larry Devlin Lumumba had to go Within a year everything would unravel The CIA plot to murder Lumumba would zzzle out but he would be deposed in a CIA backed coup transferred to enemy territory in a CIA approved operation and shot dead by Congolese assassins Hammarskjöld too would die in a mysterious plane crash en route to negotiate a cease re with the Congo s rebellious southeast And a young ambitious military officer named Joseph Mobutu who had once sworn fealty to Lumumba would seize power with U S help and misrule the country for more than three decades For the Congolese people the events of 1960 61 represented the opening chapter of a long horror story For the U S government however they provided a playbook for future interventions

Death in the Congo Emmanuel Gerard, Bruce Kuklick, 2015-02-10 Death in the Congo is a gripping account of a murder that became one of the defining events in postcolonial African history It is no less the story of the untimely death of a national dream a hope filled vision very different from what the war ravaged Democratic Republic of the Congo became in the second half of the twentieth century When Belgium relinquished colonial control in June 1960 a charismatic thirty five year old African nationalist Patrice Lumumba became prime minister of the new republic Yet stability immediately broke down A mutinous Congolese Army spread havoc while Katanga Province in southeast Congo seceded altogether Belgium dispatched its military to protect its citizens and the United Nations soon intervened with its own peacekeeping troops Meanwhile behind the scenes both the Soviet Union and the United States maneuvered to turn the crisis to their Cold War advantage A coup in September secretly aided by the UN toppled Lumumba s government In January 1961 armed men drove Lumumba to a secluded corner of the Katanga bush stood him up beside a hastily dug grave and shot him His rule as Africa s first democratically elected leader had lasted ten weeks More than fifty years later the murky circumstances and tragic symbolism of Lumumba s assassination still trouble many people around the world Emmanuel Gerard and Bruce Kuklick pursue events through a web of international politics revealing a tangled history in which many people black and white well meaning and ruthless African European and American bear responsibility for this crime

Building States Eva-Maria Muschik, 2022-04-13 Postwar multilateral cooperation is often viewed as an attempt to overcome the limitations of the nation state system However in 1945 when the United Nations was founded large parts of the world were still under imperial control Building States investigates how the UN tried to manage the dissolution of European empires in the 1950s and 1960s and helped transform the practice of international development and the meaning of state sovereignty in the process Eva Maria Muschik argues that the UN played a key role in the global proliferation and reinvention of the nation state in the postwar era as newly independent states came to rely on international assistance Drawing on previously untapped primary sources she traces how UN personnel usually in close consultation with Western officials sought to manage decolonization peacefully through

international development assistance Examining initiatives in Libya Somaliland Bolivia the Congo and New York Muschik shows how the UN pioneered a new understanding and practice of state building presented as a technical challenge for international experts rather than a political process UN officials increasingly took on public policy functions despite the organization's mandate not to interfere in the domestic affairs of its member states These initiatives Muschik suggests had lasting effects on international development practice peacekeeping and post conflict territorial administration Casting new light on how international organizations became major players in the governance of developing countries Building States has significant implications for the histories of decolonization the Cold War and international development *The diplomacy of decolonisation* Alanna O'Malley, 2018-01-31 The book reinterprets the role of the UN during the Congo crisis from 1960 to 1964 presenting a multidimensional view of the organisation Through an examination of the Anglo American relationship the book reveals how the UN helped position this event as a lightning rod in debates about how decolonisation interacted with the Cold War By examining the ways in which the various dimensions of the UN came into play in Anglo American considerations of how to handle the Congo crisis the book reveals how the Congo debate reverberated in wider ideological struggles about how decolonisation evolved and what the role of the UN would be in managing this process The UN became a central battle ground for ideas and visions of world order as the newly independent African and Asian states sought to redress the inequalities created by colonialism the US and UK sought to maintain the status quo while the Secretary General Dag Hammarskjöld tried to reconcile these two contrasting views **Decolonisation and Regional Geopolitics** Lazlo Passemiers, 2019-03-11 Decolonisation and Regional Geopolitics argues that as much as the Congo crisis 1960-1965 was a Cold War battleground so too was it a battleground for Southern Africa's decolonisation This book provides a transnational history of African decolonisation apartheid diplomacy and Southern African nationalist movements It answers three central questions First what was the nature of South African involvement in the Congo crisis Second what was the rationale for this involvement Third how did South Africans perceive the crisis Innovatively the book shifts the focus on the Congo crisis away from Cold War intervention and centres it around African decolonisation and regional geopolitics People, Places, and Mathematics Thomas Ward, 2023-10-31 This memoir chronicles the journey of an academic tracing a path from primary school in Zambia to a career in higher education as a mathematician and educational leader Set against the backdrop of the 20th century the book explores how early influences and historical events shape an individual's life and professional trajectory The author shares childhood experiences across three parts of Africa providing an original perspective as a witness to the post colonial period Through personal reflections the memoir delves into the emergence of ideas and collaborations in mathematics and how these shape career choices It also offers candid observations on the major changes in British higher education since the 1980s Intended for a general audience this book provides a compelling read for anyone interested in the experience of becoming a mathematician and higher education in general *Ireland and International Peacekeeping*

Operations 1960-2000 Katsumi Ishizuka, 2014-04-23 Analyzes why Ireland plays such a leading role in international peacekeeping operations Throws light on how a minor power can play an important role in international affairs Uses a wide range of sources from Irish and UN documents to interviews with personnel Canada, the Congo Crisis, and UN Peacekeeping, 1960-64 Kevin A. Spooner, 2010-01-01 In 1960 the Republic of Congo teetered near collapse as its first government struggled to cope with civil unrest and mutinous armed forces When the UN established what would become the largest peacekeeping operation of the Cold War the Canadian government faced a difficult decision Should it support the intervention As Kevin Spooner demonstrates Canada's involvement in the mission was not preordained The Diefenbaker government became enmeshed in a complex web of foreign and defence policy determinants that caused it to have immediate and ongoing reservations reservations that challenge cherished notions of Canada's commitment to the UN and its status as a peacekeeper This book offers one of the first detailed accounts of Canada's involvement in UN peacekeeping It will appeal to those interested in Canadian foreign policy and relations with Africa in particular and the Congo crisis and United Nations peacekeeping more generally **Konkurrenz um Menschenrechte** Peter Ridder, 2021-11-15 Die Menschenrechte und der Kalte Krieg wurden rückblickend meist als Antipoden in der Geschichte betrachtet Das Buch zeigt jedoch dass beides historisch eng miteinander verbunden war Ost und West instrumentalisierten den UN Menschenrechtsschutz um ihren Gegenüber anzugreifen und sich selbst zu profilieren Die Konkurrenz um Menschenrechte lieferte in den 60er Jahren den entschiedenen Impuls zur Einrichtung der ersten allgemeinen Untersuchungsverfahren der Menschenrechtskommission und bildete in den 70er und 80er Jahren die treibende Kraft bei der Anwendung und Weiterentwicklung des Systems zum Schutz der Menschenrechte Current Military & Political Literature, 1990 **Irish Studies in International Affairs**, 1989 **Chronicle of United Nations Activities**, 1960 **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University** Hoover Institution on War, Revolution, and Peace, 1969 **Handbook on Humanitarianism and Inequality** Silke Roth, Bandana Purkayastha, Tobias Denskus, 2024-02-12 This prescient Handbook examines how legacies of colonialism gender class and other markers of inequality intersect with contemporary humanitarianism at multiple levels **The Department of State Bulletin**, 1962 *Background Notes, Ireland*, 1986 *Guide to Microforms in Print*, 1990 **Philip's World History Encyclopedia** Steve Luck, 2000 6500 A Z encyclopedia entries fully cross referenced
