Irish Orientalism Joseph Lennon, 2004-05-01 Centuries before W B Yeats wove Indian Japanese and Irish forms together in his poetry and plays Irish writers found kinships in Asian and West Asian cultures This book maps the unacknowledged discourse of Irish Orientalism within Ireland's complex colonial heritage **The Chinese May Fourth Generation and the**

Irish Literary Revival: Writers and Fighters Simone O'Malley-Sutton, 2023-10-06 This book examines how the early twentieth century Irish Renaissance Irish Literary Revival inspired the Chinese Renaissance the May Fourth generation of writers to make agentic choices and translingual exchanges It sheds a new light on May Fourth and on the Irish Renaissance by establishing that the Irish Literary Revival 1900 1922 provided an alternative decolonizing model of resistance for the Chinese Renaissance to that provided by the western imperial center The book also argues that Chinese May Fourth intellectuals translated Irish Revivalist plays by W B Yeats Lady Gregory Se n O Casey and Synge and that Chinese peasants performed these plays throughout China during the 1920s and 1930s as a form of anti imperial resistance Yet this literary exchange was not simply going one way since Yeats Lady Gregory Synge and O Casey were also influenced by Chinese developments in literature and politics Therefore this was a reciprocal encounter based on the circulation of Anti colonial ideals and mutual transformation **Essays on James Clarence Mangan** S. Sturgeon, 2015-12-31 This is the first

collection of essays to focus on the extraordinary literary achievement of James Clarence Mangan 1803 1849 increasingly recognized as one of the most important Irish writers of the nineteenth century It features contributions by acclaimed contemporary writers including Paul Muldoon and Ciaran Carson **An Eoraip: Gaelic Ireland in Medieval and Early Modern Europe**, 2025-08-14 Medieval and early modern Irish scholars thought of themselves as Europeans As an expression of territorial association this belief reflects both their familiarity with the geographical traditions of Antiquity and the integration of their society into economic cultural and political networks that spanned the continent But it was also an articulation of a perceived cultural affinity often denied in modern scholarship The chapters in this volume examine the many and various ways that Gaelic Ireland was integrated into the broader European world focusing on literature and learning real world politics economics and travel and questions of identity Contributors are Rachel Brody Michael Clarke Simon Egan Deborah Hayden Brendan Kane Victoria L McAlister Ken Donnchu Patricia Palmer Brian Stone and Patrick Wadden

Reading Orientalism Daniel Martin Varisco, 2017-04-11 The late Edward Said remains one of the most influential critics and public intellectuals of our time with lasting contributions to many disciplines Much of his reputation derives from the phenomenal multidisciplinary influence of his 1978 book Orientalism Said's seminal polemic analyzes novels travelogues and academic texts to argue that a dominant discourse of West over East has warped virtually all past European and American representation of the Near East But despite the book's wide acclaim no systematic critical survey of the rhetoric in Said's representation of Orientalism and the resulting impact on intellectual culture has appeared until today Drawing on the

extensive discussion of Said's work in more than 600 bibliographic entries Daniel Martin Varisco has written an ambitious intellectual history of the debates that Said's work has sparked in several disciplines highlighting in particular its reception among Arab and European scholars While pointing out Said's tendency to essentialize and privilege certain texts at the expense of those that do not comfortably fit his theoretical framework Varisco analyzes the extensive commentary the book has engendered in Oriental studies literary and cultural studies feminist scholarship history political science and anthropology He employs critical satire to parody the exaggerated and pedantic aspects of post colonial discourse including Said's profound underappreciation of the role of irony and reform in many of the texts he cites The end result is a companion volume to *Orientalism* and the vast research it inspired Rather than contribute to dueling essentialisms Varisco provides a path to move beyond the binary of East versus West and the polemics of blame Reading *Orientalism* is the most comprehensive survey of Said's writing and thinking to date It will be of strong interest to scholars of Middle East studies anthropology history cultural studies post colonial studies and literary studies

India in Art in Ireland Kathleen James-Chakraborty, 2017-07-05 India in Art in Ireland is the first book to address how the relationship between these two ends of the British Empire played out in the visual arts It

demonstrates that Irish ambivalence about British imperialism in India complicates the assumption that colonialism precluded identifying with an exotic other Examining a wide range of media including manuscript illuminations paintings prints architecture stained glass and photography its authors demonstrate the complex nature of empire in India compare these empires to British imperialism in Ireland and explore the contemporary relationship between what are now two independent countries through a consideration of works of art in Irish collections supplemented by a consideration of Irish architecture and of contemporary Irish visual culture The collection features essays on Rajput and Mughal miniatures on a portrait of an Indian woman by the Irish painter Thomas Hickey on the gate lodge to the Dromana estate in County Waterford and a consideration of the intellectual context of Harry Clarke s Eve of St Agnes window This book should appeal not only to those seeking to learn more about some of Ireland s most cherished works of art but to all those curious about the complex interplay between empire anti colonialism and the visual arts

Anglo-Irish Identities, 1571-1845 David A. Valone, Jill Marie Bradbury, 2008 This book presents a series of essays that examine the ideological personal and political difficulties faced by the group variously termed the Anglo Irish the Protestant Ascendancy or the English in Ireland a group that existed in a world of contested ideological political and cultural identities At the root of this conflicted sense of self was an acute awareness among the Anglo Irish of their liminal position as colonial dominators in Ireland who were viewed as other both by the Catholic natives of Ireland and by their English kinsmen The work in this volume is highly interdisciplinary bringing to bear examination of issues that are historical literary economic and sociological Contributors investigate how individuals experienced the ambiguities and conflicts of identity formation in a colonial society how writers fought the economic and ideological superiority of the English how the cooption of Gaelic history and culture was a political strategy for the Anglo Irish and how literary texts contributed to the emergence of national consciousness In seeking to understand and trace the complex process of identity formation in early modern Ireland the essays in this volume attest to its tenuous dynamic and necessarily incomplete nature David A Valone is an Assistant Professor of History at Quinnipiac University Jill Marie Bradbury is an Assistant Professor of English at Gallaudet University
