Irish Spelling Delivered Strangled Simplification:

The Irish Language (RLE Linguistics E: Indo-European Linguistics) John Edwards, 2014-01-10 In compiling this bibliography the main purpose was to assemble references to published material of a sociolinguistic nature concerning the Irish language. The intent was not to cover publications treating language per se but rather to consider those dealing with language in its social context. Represented here are articles, chapters, books, and pamphlets bearing upon social, historical, psychological, and educational aspects of Irish, including the decline of the language, the restoration effort, the relationship of language to nationality and religion, and studies of important figures in the language movement. **Bibliography of Irish Philology and of Printed Irish Literature** ... In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day. Volume VI opens with a character study of the period followed by ten chapters of narrative history and a study of Ireland in 1914. It includes further chapters on the economy, literature, the Irish language, music, arts, education, administration, and the public service and emigration. **A New History of Ireland** Theodore William Moody, Francis X.
