Adventures 1981 28 One of the most influential runs in not just Marvel history but all comics history begins with Frank Miller's arrival as the driving creative force of DAREDEVIL. Miller remade the Man Without Fear's mythos first by illustrating Roger McKenzie's scripts with art partner Klaus Janson and then by writing his own instantly iconic tales. Miller grinds the grit of New York City's streets into every page, blending super heroics with the dark tone of hardboiled crime. He also brings with him Elektra, the assassin with surprising connections to Matt Murdock's past, and the Hand, a group of eerie and unrelenting killer ninjas. Elektra's tempestuous relationship with Matt Murdock was an instant hit in the 80s. It's just as compelling today and forms the unforgettable backdrop of Daredevil's high stakes war with the Kingpin. **Amazing Spider-Man Epic**

Fantastic Four Epic Collection Stan Lee, 2014-09-10 Collects Fantastic Four 1961 1 18 Fantastic Four Epic Collection Vol 1 The Virtues of Captain America Mark D. White, 2024-06-26 Learn how Captain America's timeless ethical code is just as relevant in the twenty-first century as it was during the 1940s. Captain America, or simply Cap, provides an example of the virtues that define personal excellence, as well as the ideals and principles upon which the United States of America was founded. In *The Virtues of Captain America*, philosopher and long-time comics fan Mark D. White shows us that this fictional superhero's old-fashioned moral code is exactly what we need today to restore kindness and respect in our personal and civic lives. Presenting Captain America's personal morality within a virtue ethics framework, the book opens with an introduction to basic concepts in moral and political philosophy and addresses issues surrounding the use of fictional characters as role models. The following chapters examine Captain America in detail, exploring the individual virtues that Cap exemplifies: the qualities that describe his moral character, his particular brand of patriotism, his ongoing battle with fascism, his personal vision of the American Dream, his moral integrity and sense of honor, and much more. Now in its second edition, *The Virtues of Captain America* is updated to include all the new developments in Captain America's saga, including new examples from the last ten years of Captain America's appearances in Marvel Comics. New coverage of the recent Secret Empire storyline, in which Captain America was brainwashed by the fascist organization Hydra, features new sections examining the nature of fascism and how Captain America's character and virtues were affected by the change. This

edition also offers new material on Sam Wilson formerly Captain America's partner the Falcon who recently became Captain America himself and how his interpretation of the role compares to Steve Rogers Showing how we can be better people if we pay attention to the choices made by the Sentinel of Liberty The Virtues of Captain America Examines the moral and political philosophy behind 80 years of Captain America comics and movies in a light hearted often humorous tone Demonstrates that the core principles and judgment exhibited by Captain America in the 1940s remain relevant in the twenty first century Describes the basic themes of Captain America's ethics such as courage humility perseverance honesty and loyalty Illustrates how Captain America stands for the basic ideals of America not its politics or government Requiring no background in philosophy or familiarity with the source material the second edition of The Virtues of Captain America Modern Day Lessons on Character from a World War II Superhero remains a must read for everyone wanting to make ethical decisions in complex real world situations and tackle the personal and political issues of today with integrity and respect *Deadpool Epic*

**A Philosopher Reads...Marvel Comics' Civil War** Mark D. White,2022-06-29 We love to see superheroes fight whether to protect innocent people from supervillains or to save the world But superheroes also fight each other and if we can look past the energy blasts and earth shattering punches we can find serious disagreements over principles and ethics This was certainly the case when Captain America and Iron Man went head to head over liberty and security in Marvel Comics epic

Civil War storyline a fictional allegory to post 9 11 America as well as the basis for the third Captain America film In his latest book Mark D White author of The Virtues of Captain America and editor of Iron Man and Philosophy carefully leads you through the ethical thinking of the three characters on the front lines of the Civil War Iron Man Captain America and Spider Man In his characteristically light and humorous tone White lays out the basic ethical foundations of each hero s thinking and highlights the moral judgment each must use to put his ethics into action But also how conflicting principles such as liberty and security must be balanced in the real world lest both be lost Written in a style that will be easily accessible to everyone A Philosopher Reads Marvel Comics Civil War will be a fascinating read for diehard comic fans and philosophy buffs as well as those looking for a simple introduction to philosophical ethics
