Newspapers and the Journalistic Public in Republican China Qiliang He, 2018-10-08 Offering an entirely new approach to understanding China's journalism history this book covers the Chinese periodical press in the first half of the twentieth century By focusing on five cases either occurring in or in relation to the year 1917 this book emphasizes the protean nature of the newspaper and seeks to challenge a press historiography which suggests modern Chinese newspapers were produced and consumed with clear agendas of popularizing enlightenment modernist and revolutionary concepts Instead this book contends that such a historiography which is premised on the classification of newspapers along the lines of their functions overlooks the opaqueness of the

Chinese press in the early twentieth century Analyzing modern Chinese history through the lens of the newspaper this book presents an interdisciplinary and international approach to studying mass communications As such this book will be useful to students and scholars of Chinese history journalism and Asian Studies more generally **Exemplary Agriculture** Sacha

manage to operate often across great distances despite widespread mistrust Doing Labor Activism in South China Darcy Pan, 2020-06-01 How did labor NGOs come into existence in contemporary China How do labor activists act or not act when the limits of state tolerance are unclear With a focus on labor NGOs in South China and Western funding agencies this book sets out to address these questions by investigating the dynamics of state control in post socialist China since the 1970s in which rapid economic and social transformations have cultivated an environment of uncertainty Taking uncertainty as an analytical space productive of emergent practices and discourses this book draws on original fieldwork and interviews to study the lived experiences of different actors throughout the labor NGO community the foreign donors trying to bring about change and the networks of social relationships being strategically reconfigured Doing Labor Activism in South China offers an ethnography of the Chinese state that reveals an intimate and complicit modality of self governing demonstrating how neoliberal ideas are at once represented by international development and deflected in grassroots development It will be useful to students and scholars of Social Anthropology and Urban Ethnography as well as Political Science and Chinese Studies more generally The Routledge Dictionary of Performance and Contemporary Theatre Patrice Pavis, 2016-04-28 The Routledge Dictionary of Contemporary Theatre and Performance provides the first authoritative alphabetical guide to the theatre and performance of the last 30 years Conceived and written by one of the foremost scholars and critics of theatre in the world it literally takes us from Activism to Zapping analysing everything along the way from Body Art and the Flashmob to Multimedia and the Postdramatic What we think of as performance and drama has undergone a transformation in recent decades Similarly how these terms are defined used and critiqued has also changed thanks to interventions from a panoply of theorists from Derrida to Ranciere Patrice Pavis s Dictionary provides an indispensable roadmap for this complex and fascinating terrain a volume no theatre bookshelf can afford to be without **Two-Dimensional People** Tan Tongxue, 2022-12-30 Based on almost eight years of fieldwork in a town and a village in South China this book analyzes contradictions among various dimensions of the peasant economy social relationships popular religion and local politics in rural China Compared to many anthropological sociological and political studies of rural China which regard Chinese peasants as one dimensionally materialistic politically conservative egocentric lacking public mindedness as in anthropologist Yan Yunxiang s notion of the uncivil individual with collapsed beliefs and thinking only of the present or the today ness of today according to anthropologist Liu Xin this book shows that people in contemporary rural China are actually two dimensional trying to combine the calculation of self interest with affective networks of reciprocity but often falling into awkwardness or cynicism in a paradoxical symbiosis between nihilism and transcendence While Marcuse used the words of Benjamin to analyze one dimensional man writing Only for the sake of the hopeless ones have we been given hope this book writes of two dimensional people Only when the vast majority of ordinary people can find hope in everyday life can we finally be given hope This book will be of interest to scholars and students of Sociology Anthropology and East Asian Studies It will
