**What caused the Cold War?**

The United States and the Soviet Union were allies during World War II. In February 1945, they agreed to divide Germany into separate zones. Each zone was occupied by the soldiers of one of the Allies. The Allies also helped form the **United Nations (UN)** in 1945. The UN pledged to prevent war.

The United States and the Soviet Union had important differences after the war. The United States suffered few casualties and was the richest nation in the world.

The Soviet Union suffered enormous loss of life and damage to its cities.

There were also striking political differences. The United States wanted to encourage democracy. The Soviet Union wanted to set up Communist governments. These differences caused tensions between the two countries.
