

World History

14.1 Revolutions in Russia (433-439)

Guiding Question: What was the greatest contributing factor to the Rise of Communism in Russia?

1. In 1881 why were revolutionaries angry?

Revolutionaries were angry over the slow pace of political change assassinated the reform-minded czar, Alexander II. Russia was heading toward a full-scale revolution.

Autocracy- a form of government in which the leader has total power

2. List two ways how Czar Alexander III use his autocratic rule:

To wipe out revolutionaries, Alexander III used harsh measures. He imposed strict censorship codes on published materials and written documents, including private letters. His secret police carefully watched both secondary schools and universities.

3. How did Alexander III establish a uniform Russian culture?

Alexander III oppressed other national groups within Russia. He made Russian the official language of the empire and forbade the use of minority languages, such as Polish, in schools. Alexander made Jews the target of persecution.

Pogroms- organized violence against Jews in which Russian citizens looted and destroyed Jewish homes, stores and synagogues.

4. How did Nicholas II finance the industrialization of Russia?

To finance the buildup of Russian industries, the government sought foreign investors and raised taxes. These steps boosted the growth of heavy industry, particularly steel.

5. Describe the Trans-Siberian Railroad:

The Trans-Siberian Railway, begun in 1891, the railway was not completed until 1916. It connected European Russia in the west with Russian ports on the Pacific Ocean in the east.

6. Why did industrialization in Russia lead to unrest?

Rapid industrialization stirred discontent among the people of Russia. The growth of factories brought new problems, such as grueling working conditions, miserably low wages, and child labor. The government outlawed trade unions.

7. What did Marxist revolutionaries believe would be the outcome of industrial class workers overthrow of the czar?

As a result of all of these factors, several revolutionary movements began to grow and compete for power. A group that followed the views of Karl Marx successfully established a following in Russia. The Marxist revolutionaries believed that the industrial class of workers would overthrow the czar. These workers would then form "a dictatorship of the proletariat." This meant that the proletariat—the work-ers—would rule the country.

Proletariat- workers

8. How do the **Menshevik** and **Bolshevik** ideals differ?

In 1903, Russian Marxists split into two groups over revolutionary tactics. The more moderate *Mensheviks* wanted a broad base of popular support for the revolution. The more radical *Bolsheviks* supported a small number of committed revolutionaries willing to sacrifice everything for change.

9. Who was the leader of the Bolsheviks and why did he flee to Western Europe?

The major leader of the Bolsheviks was Vladimir Ilyich Ulyanov. In the early 1900s, Lenin fled to western Europe to avoid arrest by the czarist regime. From there he maintained contact with other Bolsheviks. Lenin then waited until he could safely return to Russia. He adopted the name of Lenin.

10. Predict how the Russian losses in the Russo-Japanese war would encourage revolutions in Russia.

News of repeated Russian losses sparked unrest at home and led to a revolt in the midst of the war.

11. Why did Russian workers and families approach the czar's winter palace on January 22, 1905?
