health care system Until that time the thought of vigorous exercise in the cardiac patient soon after an event was close to anathema One of us WEK was introduced to Herman Hellerstein in Cleveland in the late 1960 s when his father sought medical opinion from him for a cardiac condition WEK was introduced to Andy Wallace in 1979 by which time the latter had started a multidisciplinary geographically regional cardiac rehabilitation program at Duke based upon consultations with Hellerstein and Cooper By then cardiac rehabilitation was progressing beyond the vision of exercise only and since then the concept of cardiac rehabilitation has grown into the comprehensive multidisciplinary program that we know today and that we attempt to describe in this volume The practice of cardiac rehabilitation has grown and metamorphosed in the last thirty years in parallel with the growth and metamorphosis of the practice of card vascular medicine During the formative stages of cardiac rehabilitation the use of coronary care units was in its infancy The coronary artery bypass operation was less than ten years old The LIMA bypass had not been invented
