The background of the cover is a vibrant, abstract artwork. It features a central, bright white starburst or sunburst shape with multiple rays extending outwards. Below this, there are large, dark, circular shapes that resemble stylized suns or planets, some with internal patterns. The overall color palette is dominated by blues, purples, and greens, with accents of yellow and red. The style is reminiscent of a collage or a digital painting.

**A History of Afro-Hispanic Language** John M. Lipski, 2005-03-10 The African slave trade beginning in the fifteenth century brought African languages into contact with Spanish and Portuguese resulting in the Africans gradual acquisition of these languages In this 2004 book John Lipski describes the major forms of Afro Hispanic language found in the Iberian Peninsula and Latin America over the last 500 years As well as discussing pronunciation morphology and syntax he separates legitimate forms of Afro Hispanic expression from those that result from racist stereotyping to assess how contact with the African diaspora has had a permanent impact on contemporary Spanish A principal issue is the possibility that Spanish in contact with speakers of African languages may have creolized and restructured in the Caribbean and perhaps elsewhere permanently affecting regional and social varieties of Spanish today The book is accompanied by the largest known anthology of primary Afro Hispanic texts from Iberia Latin America and former Afro Hispanic contacts in Africa and Asia

**Tracing Language Movement in Africa** Ericka A. Albaugh, Kathryn M. de Luna, 2018-01-10 The great diversity of ethnicities and languages in Africa encourages a vision of Africa as a fragmented continent with language maps only perpetuating this vision by drawing discrete language groups In reality however most people can communicate with most others within and across linguistic boundaries even if not in languages taught or learned in schools Many disciplines have looked carefully at language movement and change on the continent but their lack of interaction has prevented the emergence of a cohesive picture of African languages Tracing Language Movement in Africa gathers eighteen scholars together to offer a truly multidisciplinary representation of language in Africa combining insights from history archaeology religion linguistics political science and philosophy The resulting volume illuminates commonalities and distinctions in these disciplines understanding of language change and movement in Africa The volume is empirical aiming to represent language more accurately on the continent as well as theoretical It identifies the theories that each discipline uses to make sense of language movement in Africa in plain terms and highlights the themes that cut across all disciplines how scholars use data understand boundaries represent change and conceptualize power The volume is organized to reflect differing conceptions of language that arise from its discipline specific contributions that is tendencies to study changes that consolidate language or those that splinter it viewing languages as whole or in part Each contribution includes a short explanation of a discipline s theoretical and methodological approaches to language movement and change to ensure that the chapters are accessible to non specialists followed by an illustrative empirical case study This volume will inspire multidisciplinary conversations around the study of language change in Africa opening new interdisciplinary dialogue and spurring scholars to adapt the questions data and method of other disciplines to the problems that animate their own fields

**The Trinidad Douglas** Ferne Louanne Regis, 2016-08-17 In their search for personal identity Trinidad's Douglas the offspring of Indo-African unions find themselves in a complex social, cultural and linguistic situation. This is reflected as much in their unclear and uncertain social positioning in a society of competing ethnic groups as in the linguistic possibilities open to them in their quotidian social interactions as they negotiate between their parent communities. Trinidadian English Creole (TEC), the mother tongue or lingua franca of the majority of the population, exhibits a lexical amalgam of donor varieties brought to the island during the period of its colonization. The extent to which Trinidadians employ these lexical items is linked to their affinity to a particular donor group. As a consequence of this, Douglas's ethnicity and identity are hypothesized as being expressed chiefly through the use of lexical items available to them via their upbringing in specific communities. This book describes and analyses specific lexical items in use by Douglas who reside in mixed-race communities as well as communities stereotypically marked Indian and African by Trinidadians to determine the extent to which Douglas project a distinct identity, a subsumed identity linked to an ancestral ethnic group or a shifting identity based on accommodative strategies employed during interaction within their social networks.

**The British, Soccer and Identity in the Caribbean** Roy McCree, 2024-08-02 This book examines the role of the British in the diffusion and development of soccer on the Caribbean islands of Trinidad and Tobago in the light of issues of race, ethnicity, colour, class and national identity in the period 1908-1973. This role was expressed in the activities of understudied organizations like the English Football Association and the British Council, as well as oil companies like Shell and British Petroleum through the recruitment of coaches such as Jimmy Hill and Michael Laing; the staging of tours involving teams such as Chelsea, Coventry City, Wolverhampton Wanderers and Arsenal; in the 1960s, the formation of clubs, leagues and the construction of sporting facilities. Relatedly, it examines the role of the local middle classes in facilitating the commercialization of the game through professionalization and the operations of betting pools. The volume will help to give readers a better understanding of how the game served as a double agent of British hegemony and segregation, as well as integration and socio-political change in colonial and post-colonial society. The book will be of value to sport scholars, students, footballers and fans of the game who have an interest in its history across the world.

and experiences of people of African descent outside of the African continent By incorporating Europe and North Africa as well as North America Latin America and the Caribbean this reader shifts the discourse on the African diaspora away from its focus solely on the Americas underscoring the fact that much of the movement of people of African descent took place in Old World contexts This broader view allows for a more comprehensive approach to the study of the African diaspora The volume provides an overview of African diaspora studies and features as a major concern a rigorous interrogation of identity Other primary themes include contributions to western civilization from religion music and sports to agricultural production and medicine as well as the way in which our understanding of the African diaspora fits into larger studies of transnational phenomena

Keresztesi, 2020-11-11 *Literary Black Power in the Caribbean* focuses on the Black Power movement in the anglophone Caribbean as represented and critically debated in literary texts music and film This volume is groundbreaking in its focus on the creative arts and artists in their evaluations of and insights on the relevance of the Black Power message across the region The author takes a cultural studies approach to bring together the political with the aesthetic enriching an already fertile debate on the era and the subject of Black Power in the Caribbean region The chapters discuss various aspects of Black Power in the Caribbean on the pages of journals and magazines at contemporary conferences that radicalized academia to join forces with communities in fiction and essays by writers and intellectuals in calypso and reggae music and in the first films produced in the Caribbean Produced at the 50th anniversary of the 1970 Black Power Revolution in Port of Spain Trinidad this timely book will be of interest to students and academics focusing on Black Power Caribbean literary and cultural studies African diaspora and Global South radical political and cultural theory *American Trickster* Emily Zobel Marshall, 2019-06-18 Our fascination with the trickster figure whose presence is global stems from our desire to break free from the tightly regimented structures of our societies Condemned to conform to laws and rules imposed by governments communities social groups and family bonds we revel in the fantasy of the trickster whose energy and cunning knows no bounds and for whom nothing is sacred One such trickster is Brer Rabbit who was introduced to North America through the folktales of enslaved Africans On the plantations Brer Rabbit like Anansi in the Caribbean functioned as a resistance figure for the enslaved whose trickery was aimed at undermining and challenging the plantation regime Yet as Brer Rabbit tales moved from the oral tradition to the printed page in the late nineteenth century the trickster was emptied of his potentially powerful symbolism by white American collectors authors and folklorists in their attempt to create a nostalgic fantasy of the

plantation past American Trickster offers readers a unique insight into the cultural significance of the Brer Rabbit trickster figure from his African roots and through to his influence on contemporary culture Exploring the changing portrayals of the trickster figure through a wealth of cultural forms including folktales advertising fiction and films the book scrutinises the profound tensions between the perpetuation of damaging racial stereotypes and the need to keep African American folk traditions alive Emily Zobel Marshall argues that Brer Rabbit was eventually reclaimed by twentieth century African American novelists whose protagonists trick their way out of limiting stereotypes break down social and cultural boundaries and offer readers practical and psychological methods for challenging the traumatic legacies of slavery and racism

*Reversing Sail* Michael A. Gomez, 2005 This book examines the global unfolding of the African Diaspora the migrations and dispersals of people of African from antiquity to the modern period Their exploits challenges and struggles are discussed over a wide expanse of time in ways that link as well as differentiate past and present circumstances The experiences of Africans in the Old World in the Mediterranean and Islamic worlds is followed by their movement into the New where their plight in lands claimed by Portuguese Spanish Dutch French and English colonial powers is analyzed from enslavement through the Cold War While appropriate mention is made of persons of renown particular attention is paid to the everyday lives of working class people and their cultural efflorescence The book also attempts to explain contemporary plights and struggles through the lens of history

*Afro-Catholic Festivals in the Americas* Cécile Fromont, 2019-04-24 This volume demonstrates how from the beginning of the Atlantic slave trade enslaved and free Africans in the Americas used Catholicism and Christian derived celebrations as spaces for autonomous cultural expression social organization and political empowerment Their appropriation of Catholic based celebrations calls into question the long held idea that Africans and their descendants in the diaspora either resignedly accepted Christianity or else transformed its religious rituals into syncretic objects of stealthy resistance In cities and on plantations throughout the Americas men and women of African birth or descent staged mock battles against heathens elected Christian queens and kings with great pageantry and gathered in festive rituals to express their devotion to saints Many of these traditions endure in the twenty first century The contributors to this volume draw connections between these Afro Catholic festivals observed from North America to South America and the Caribbean and their precedents in the early modern kingdom of Kongo one of the main regions of origin of men and women enslaved in the New World This transatlantic perspective offers a useful counterpoint to the Yoruba focus prevailing in studies of African diasporic religions and reveals how Kongo infused Catholicism constituted a site for the formation of black Atlantic tradition Afro Catholic Festivals in the Americas complicates the notion of Christianity as a European tool of domination and enhances our comprehension of the formation and trajectory of black religious culture on the American continent It will be of great interest to scholars of African diaspora religion Christianity and performance In addition to the editor the contributors include Kevin Dawson Jeroen Dewulf Junia Ferreira Furtado Michael Iyanaga Dianne M Stewart

Miguel A Valerio and Lisa Voigt Jah Kingdom Monique A. Bedasse, 2017-08-11 From its beginnings in 1930s Jamaica the Rastafarian movement has become a global presence While the existing studies of the Rastafarian movement have primarily focused on its cultural expression through reggae music art and iconography Monique A Bedasse argues that repatriation to Africa represents the most important vehicle of Rastafari's international growth Shifting the scholarship on repatriation from Ethiopia to Tanzania Bedasse foregrounds Rastafari's enduring connection to black radical politics and establishes Tanzania as a critical site to explore gender religion race citizenship socialism and nation Beyond her engagement with how the Rastafarian idea of Africa translated into a lived reality she demonstrates how Tanzanian state and nonstate actors not only validated the Rastafarian idea of diaspora but were also crucial to defining the parameters of Pan Africanism Based on previously undiscovered oral and written sources from Tanzania Jamaica England the United States and Trinidad Bedasse uncovers a vast and varied transnational network including Julius Nyerere Michael Manley and C L R James revealing Rastafari's entrenchment in the making of Pan Africanism in the postindependence period

advocated for intangible cultural property The book proposes a reinterpretation of Joseph Raz's interest theory of group rights in order to accommodate the rights advocated for collectively derived cultural signifiers on the basis of their value as symbols of identity In doing so Le Gall offers an original account of how those signifiers which may not be described as exclusively traditional or indigenous and held in ways which are not traditional or customary may be accommodated in emerging traditional knowledge laws
