DALLAS, 2018-10-25 In the nineteenth century there were thousands of British gunmakers plying their trade the length and breadth of the land building all qualities of gun and rifle. Gunmakers have dwindled to a very small number today but the nature of the trade has changed from volume production to exclusive best guns only. British gunmakers have embraced the new technology on offer and by using a combination of CNC machining and new steels allied to traditional gunmaking skills they are building superb quality guns and rifles to the highest standards. Unlike their competitors British guns are not entirely built by machine and there is a large element of hand craftsmanship in every example built. Not content to rest on their historical laurels they have introduced new designs and brought their creations right up to date for twenty first century requirements. Guns and rifles are all built to the exact specifications of the
