Compendium of International Commercial and Investment Arbitration Stefan Kröll, Andrea K. Bjorklund, Franco Ferrari, 2023-03-02 The Compendium like an encyclopedia contains entries for most of the foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the commonalities as well as the differences between commercial and investment arbitration whether and where cross fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in promoting the creation of a culture of international arbitration that considers commercial arbitration and investment arbitration as part of a whole but with certain distinct features particular to each **The Enforceability of the Interim Measures Granted by an Emergency**

Calissendorff, Patrik Schöldström, 2020-11-27. Each year Stockholm is the arbitration seat of choice for numerous parties endeavouring to resolve international disputes. It is the second most used venue for investment disputes and it is often the venue for disputes arising from the Energy Charter Treaty. This annual publication, launched under the auspices of the Stockholm Centre for Commercial Law, is designed to meet the information needs of arbitration practitioners and parties from all over the world. The present edition provides authoritative chapters, some of them with a Swedish angle, that address current matters of global concern in arbitration, including the following: dispute resolution in the financial sector; emergency arbitration; recent Swedish case law related to arbitration; and, in particular, one seminal case: arbitrator liability, the right to a public hearing in arbitration and squeeze-out arbitration. The Yearbook provides both perspective and detailed analyses that will be welcomed by arbitration practitioners, counsel and judges deciding arbitration cases. It will also provide valuable insights for arbitration academics, in-house counsel at multinational companies and arbitral institutions worldwide.

Analogies in International Investment Law and Arbitration Valentina Vadi, 2016. This book explores whether the use of analogies can improve the functioning of such arbitration and how such analogies might be drawn. *Investment Treaty Arbitration as Public International Law* Eric De Brabandere, 2014-09-15. Investment treaty arbitration is fast becoming one of the most common methods of dispute settlement in international law. Despite having ancient roots, tensions remain between the private interests in international investment relations and the public international law features of the arbitral procedure. This book, which presents an account of investment treaty arbitration as a part of public international law as opposed to commercial law, provides an important contribution to the literature on this subject. Eric De Brabandere examines the procedural implications of conceiving of investment treaty arbitration in such a way with regard to issues such as the principles of confidentiality and privacy and remedies. The author demonstrates how the public international law character of investment treaty arbitration derives from and has impacted upon the dispute settlement procedure. *The Principle of Effective Legal Protection in Administrative Law* Zoltán Sente, Konrad Lachmayer, 2016-08-05. This collection presents a comparative analysis of the principle of effective legal protection in administrative law in Europe. It examines how European states consider and enforce the related requirements in their domestic administrative law. The book is divided into three parts: the first comprises a theoretical introductory chapter

along with perspectives from International and European Law part two presents 15 individual country reports on the principle of effective legal protection in mostly EU member states The core function of the reports is to provide an analysis of the domestic instruments and procedures Adopting a contextual approach they consider the historical political and legal circumstances as well as analysing the relevant case law of the domestic courts the third part provides a comparative analysis of the country reports The final chapter assesses the influence and relevance of EU law and the ECHR The book thus identifies the most important trends and makes a valuable contribution to the debate around convergence and divergence in European national administrative systems The Open Access version of this book available at <https://www.taylorfrancis.com> books principle effective legal protection administrative law zolt n szenie konrad lachmayer e 10 4324 9781315553979 has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license

Investment Arbitration's Tightrope Paolo Vargiu, 2025-06-03 This book addresses the role of investment arbitrators within the framework of international investment law a system that tends by design to prioritise the interests of foreign investors often at the expense of the economic and social policies of the host states The theoretical foundations of this volume are doctrinal and the argument presented is aimed at contributing to the scholarly debate on the reform of the system of investment law Because of this the book is particularly focussed on the scholarship and is aimed at an audience already familiar with the system of investment arbitration and its case law The author explores both the explicit and implicit duties of arbitrators and critically questions certain critiques of investment law that call for arbitrators to interpret bilateral investment treaties and free trade agreements in ways that also protect the host states interests While the author argues that challenges to the legitimacy and credibility of the current investment law regime are well founded he also argues that arbitrators find themselves constrained by the prevailing legal framework unable to fully balance the competing interests of foreign investors and host states The book concludes that achieving greater equality in the investment legal regime necessitates a departure from the existing bilateral investment treaties paradigm and calls for a more just and balanced system of investment treaties The author argues that until such a transformation occurs arbitrators remain compelled to apply the current applicable law highlighting the insurmountable limitations and tensions within the present system
