equality respect and dignity      *Global Issues* Shirley A. Fedorak,2013-11-29 *Global Issues* is a pedagogically rich book that addresses prominent issues of contemporary concern      *Making Space for Indigenous Feminism, 2nd Edition* Joyce Green,2020-07-10T00:00:00Z The first edition of *Making Space for Indigenous Feminism* proposed that Indigenous feminism was a valid and indeed essential theoretical and activist position and introduced a roster of important Indigenous feminist contributors This new edition builds on the success and research of the first and provides updated and new chapters that cover a wide range of some of the most important issues facing Indigenous peoples today violence against women recovery of Indigenous self determination racism misogyny and decolonization Specifically new chapters deal with Indigenous resurgence feminism amongst the Sami and in Aboriginal Australia neoliberal restructuring in Oaxaca Canada's settler racism and sexism and missing and murdered Indigenous women and girls in Canada Written by Indigenous feminists and allies this book provides a powerful and original intellectual and political contribution demonstrating that feminism has much to offer Indigenous women and all Indigenous peoples in their struggles against oppression      **Judging Sex Work** Colton Fehr,2024-02-15 In Bedford the Supreme Court struck down prohibitions against communicating in public for the purpose of sex work living on its avails and working from a bawdy house Its narrow constitutional reasoning nevertheless allowed Parliament to respond by adopting the end demand or Nordic Model of sex work regulation an approach widely criticized for failing to ensure sex worker safety Judging Sex Work takes stock of the Bedford decision arguing that the constitutional issue was improperly framed Because the most vulnerable sex workers have no realistic choice but to commit the impugned offences they already possess a legal defence The constitutionality of the sex work laws should therefore have been assessed by their application to those who choose sex work an approach that militates in favour of upholding these laws based on current jurisprudence While this approach leads to the former restrictions on sex work being constitutional it also has the salutary effect of forcing litigants to consider a more pressing question Can sex work be rationalized as a criminal matter at all      *Red Light Labour* Elya M. Durisin,Emily van der Meulen,Chris Bruckert,2018-09-01 In 2013 the Supreme Court ruled in *Canada v Bedford* that key prostitution laws were unconstitutional The decision provoked wide interest but little new insight into sex work *Red Light Labour* addresses Canada's new legal regime regulating sex work through the analysis of past and present policy approaches and consideration of how laws and those who uphold them have constructed controlled and criminalized sex workers their clients and their workspaces This groundbreaking collection also offers nuanced interpretations of commercial sexual labour that foreground the personal perspectives of workers and activists The contributors highlight the struggle for civic and social inclusion by considering sex workers advocacy tactics successes and challenges *Red Light Labour* promotes social and economic justice within a sex work as labour framework This book is a timely intervention that showcases up to date legal policy and social analysis of sex work in Canada      *The Criminalization of Migration* Idil Atak,James C. Simeon,2018-12-30 With over 240 million migrants in the world including over 65 million

forced migrants and refugees states have turned to draconian measures to stem the flow of irregular migration including the criminalization of migration itself Canada perceived as a nation of immigrants and touted as one of the most generous countries in the world today for its reception of refugees has not been immune from these practices This book examines crimmigration the criminalization of migration from national and comparative perspectives drawing attention to the increasing use of criminal law measures public policies and practices that stigmatize or diminish the rights of forced migrants and refugees within a dominant public discourse that not only stereotypes and criminalizes but marginalizes forced migrants Leading researchers legal scholars and practitioners provide in depth analyses of theoretical concerns legal and public policy dimensions historic migration crises and the current dynamics and future prospects of crimmigration The editors situate each chapter within the existing migration literature and outline a way forward for the decriminalization of migration through the vigorous promotion and advancement of human rights Building on recent legal policy academic and advocacy initiatives The Criminalization of Migration maps how the predominant trend toward the criminalization of migration in Canada and abroad can be reversed for the benefit of all especially those forced to migrate for the protection of their inherent human rights and dignity
