## Module: Police Written Exam

Module Progress

### Lesson 7: Distance, Speed, and Time

Lesson 7

#### In this lesson, you will learn:

- The formula used to explain the relationship between distance, speed, and time.
- The standard units used for each of these three parameters.
- Techniques to help you solve problems related to distance, speed, and time.
- Practice questions to help you work through exam-style problems.
- The relevance of this subject to both the police exam and your career.

### 7.1 Introduction to Distance, Speed, and Time

Questions on distance, speed, and time are routinely asked on the police written exam. Applicants are expected to understand the formula that links these three metrics together. You are also expected to work through questions that test your understanding about one or more of these metrics.

This is the standard formula used to explain the relationship between speed, distance, and time. That is  $\text{speed} = \text{distance} \div \text{time}$ .

Or to put it another way distance divided by speed will give you the time.
