Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Public Health Approaches to Reduce Vision Impairment and Promote Eye Health,2017-01-15 The ability to see deeply affects how human beings perceive and interpret the world around them For most people eyesight is part of everyday communication social activities educational and professional pursuits the care of others and the maintenance of personal health independence and mobility Functioning eyes and vision system can reduce an adult s risk of chronic health conditions death falls and injuries social isolation depression and other psychological problems In children properly maintained eye and vision health contributes to a child s social development academic achievement and better health across the lifespan The public generally recognizes its reliance on sight and fears its loss but emphasis on eye and vision health in general has not been integrated into daily life to the same extent as other health promotion activities such as teeth brushing hand washing physical and mental exercise and various injury prevention behaviors A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health Making Eye Health a Population Health Imperative Vision for Tomorrow proposes a new population centered framework to guide action and coordination among various and sometimes competing stakeholders in pursuit of improved eye and vision health and health equity in the United States Building on the momentum of previous public health efforts this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal state and local levels *Home-Based Child Care Study Committee* Iowa. incisive critique of public policy that points to the United States as an outlier in the international community Drawing on historical and international perspectives Polakow creates a groundbreaking analysis of child care as a human right persuasively arguing for a universal child care system Who Cares for Our Children is one of the most disturbing books I have read in a long time It should have a major impact on debates over poverty and social policy From the Foreword by Barbara Ehrenreich author of Nickel and Dimed In this beautifully written and provocative volume Polakow deftly steps aside and lets real mothers struggling against the odds to keep their families safe and sound speak for themselves about what they need This book delivers a timely message Child care should be viewed as a human right Martha F Davis Northeastern University School of Law A collection of moving and often chilling personal narratives Who Cares for Our Children is a powerful and well documented analysis of the worlds of low income families Beth Blue Swadener Arizona State University Thoroughly researched and grounded in a heartfelt sympathy for the struggles of families that face such painful choices and dilemmas in meeting the needs of their children James Garbarino Loyola University Chicago
