

## 4.4 Filling the appliance with water

**CAUTION!** Do not insert the plug of the boiler into the earthed AC wall socket! First fill the system with cold water according to the instructions in this section.

To fill the appliance with cold water:

| Step | Action                                                                                                                                                                                 |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Make sure all connections are tightened properly to prevent leakages.                                                                                                                  |
| 2    | Make sure water can drip freely from the pressure-relief device (22).                                                                                                                  |
| 3    | If the mixing valve is (D) installed, set the temperature with the temperature regulator (34).                                                                                         |
| 4    | Make sure the valve (16) on the pressure safety valve is in the OPEN position.                                                                                                         |
| 5    | Open the cold water supply valve.                                                                                                                                                      |
| 6    | If present, open the warm water supply valve.                                                                                                                                          |
| 7    | Check all connections for water tightness.                                                                                                                                             |
| 8    | Push and hold the button on the boiling water handle (11). Turn the handle counterclockwise to open the valve. Keep the valve open until a constant flow of water flows out the spout. |
| 9    | Move the mixer handle (12) to the right to open the valve. Keep the valve open until a constant flow of water flows out the spout. The system is now fully filled with water.          |
