Better Worlds Peter Roberts,John Freeman-Moir,2013-02-21 Better Worlds Education Art and Utopia provides a fresh examination of utopia and education Adopting an interdisciplinary approach and drawing on literature and the visual arts as well as traditional non fiction sources the authors explore utopia not as a model of social perfection but as the active imaginative building of better worlds Utopian questions they argue lie at the heart of education and addressing such questions demands attention not just to matters of theoretical principle but to the particulars of everyday life and experience Taking utopia seriously in educational thought also involves a consideration of that which is dystopian Utopia this book suggests is not something that is fixed final or ever fully realized instead it must be constantly recreated and education as an ongoing process of reflection action and transformation has a central role to play in this process
