Slave Species of the Gods Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species first proposed by Zecharia Sitchin in The 12th Planet Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago However as Michael Tellinger reveals the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200 000 years ago Sent to Earth in search of life saving gold these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold thus beginning our global traditions of gold obsession slavery and god as dominating master Revealing new archaeological and genetic evidence in support of Zecharia Sitchin s revolutionary work with pre biblical clay tablets Tellinger shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA which explains why less than 3 percent of our DNA is active He identifies a recently discovered complex of sophisticated ruins in South Africa complete with thousands of mines as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy Matching key mythologies of the world s religions to the Sumerian clay tablet stories on which they are based he details the actual events behind these tales of direct physical interactions with god concluding with the epic flood a perennial theme of ancient myth that wiped out the Anunnaki mining operations Tellinger shows that as humanity awakens to the truth about our origins we can overcome our programmed animalistic and slave like nature tap in to our dormant Anunnaki DNA and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe

The Fiction of Occasion in Hellenistic and Roman Poetry Adrian Gramps,2021-07-05 The aim of this book is to devise a method for approaching the problem of presence in Hellenistic and Roman poetry The problem of presence as defined here is the problem of the availability or accessibility to the reader of the fictional worlds disclosed by poetry From Callimachus Hymns to the Odes of Horace poets of this era repeatedly challenge readers by beckoning them to explore fictive spaces which are at once familiar and otherworldly realms of the imagination which are nevertheless firmly rooted in the lived reality of the poets and their contemporaries We too when we read these poems may feel simultaneously a sense of being transported to a world apart and of being seized upon by the poem s address in the here and now of reading The fiction of occasion is proposed as a new conceptual tool for understanding how these poems produce such problematic presences and what varieties of experience they make possible for their readers The fiction of occasion is defined as a phenomenon whereby a poem is fictionally framed as part of a material event or occasion with which the reader is invited to engage through the medium of the senses The book explores this concept through close readings of key authors from the corpus of first person poetry written in Greek and Latin between the 3rd century BCE and the 1st century CE with a focus on Callimachus Bion Catullus Propertius and Horace The ultimate purpose of these readings is to move towards developing a new vocabulary for conceptualising ancient poetry as an embodied experience
