Catalogue of the Astor Library (continuation) Charles Alexander Nelson, 1886 **Catalogue of the Astor Library** Astor Library, 1887 **Catalogue of the Astor Library** Charles Alexander Nelson, 1887 British and American Musical Theatre Exchanges in the West End (1924-1970) Arianne Johnson Quinn, 2023-10-24 This monograph centres on the history of musical theatre in a space of cultural significance for British identity namely the Theatre Royal Drury Lane which housed many prominent American productions from 1924 1970 It argues that during this period Drury Lane was the site of cultural

exchanges between Britain and the United States that were a direct result of global engagement in two world wars and the evolution of both countries as imperial powers The critical and public response to works of musical theatre during this period particularly the American musical demonstrates the shifting response by the public to global conflict the rise of an American Empire in the eyes of the British government and the ongoing cultural debates about the role of Americans in British public life By considering the status of Drury Lane as a key site of cultural and political exchanges between the United States and Britain this study allows us to gain a more complete portrait of the musical s cultural significance in Britain British Medical Journal ,1888 **An Annotated Bibliography of Nineteenth-Century Grammars of English** Manfred Görlach,1998-11-15 In the 19th century education became accessible to much wider circles of society in a great number and variety of schools and the teaching of grammar came to be obligatory from 1870 72 with the advent of general education Whereas these general trends of the 19th century are well known to scholars working in different disciplines of social history and the history of education in particular it is still true that major sections of the evidence are largely uncollected This is especially so for school books there is virtually a gap between the 18th century and the present grammatical tradition This bibliography lists some 1930 works on English grammar published in the 19th century mainly in Britain and the US half of which are accompanied by short descriptions of their physical make up content and affiliation **Dictionary of National Biography** Leslie Stephen,Sir Sidney Lee,1892 *The Catalogue of the Library* South Australian Institute (ADELAIDE),1869
