Handbook Of Development Economics Volume 5:

Handbook of Development Economics Dani Rodrick, M.R. Rosenzweig, 2009-11-09 What guidance does academic research really provide to economic policy development The critical and analytical surveys in this volume investigate links between policies and outcomes by surveying work from broad macroeconomic policies to interventions in microfinance Asserting that there are no universal correspondences between policies and outcomes contributors demonstrate instead that only an intense familiarity with the development context and the universe of applicable economic models can generate successful policies Getting cause and effect right is essential for policy design and implementation With the goal of drawing researchers and policy makers closer this volume highlights our increasing understanding of ways to combine economic theorizing with careful thoughtful empirical work Presents an accurate self contained survey of the current state of the field Summarizes the most recent discussions and elucidates new developments Although original material is also included the main aim is the provision of comprehensive and accessible surveys

Handbook of Development Economics Dani Rodrik, Mark R. Rosenzweig, 2010 This handbook organizes chapters by sets of policies that are important components of discussions about how to facilitate development In each chapter authors identify and discuss the relevant theoretical and empirical literature that describes the fundamental problems that the policies seek to remedy or ameliorate as well as the literature that evaluates the effects of the policies

Pathways Out of Poverty During An Economic Crisis C. Peter Timmer, Neil McCulloch, 2007 Most poor people in developing countries still live in rural areas and are primarily engaged in low productivity farming activities Thus pathways out of poverty are likely to be strongly connected to productivity increases in the rural economy whether they are realized in farming in rural nonfarm enterprises or by way of rural urban migration The authors use cross sectional data from the Central Statistical Board for 1993 and 2002 as well as a panel data set from the Indonesia Family Life Survey for 1993 and 2000 to show which pathways out of poverty were most successful over this period The findings suggest that increased engagement of farmers in rural nonfarm enterprises is an important route out of rural poverty but that most of the rural agricultural poor that exit poverty still do so while remaining rural and agricultural So changes in agricultural prices wages and productivity still play a critical role in moving people out of poverty

The Theory and Practice of Microcredit Wahiduddin Mahmud,S. R. Osmani,2016-10-04 The remarkable speed at which microcredit has expanded around the world in the last three decades has piqued the curiosity of practitioners and theorists alike By developing innovative ways of making credit available to the poor the idea of microcredit has challenged many traditional assumptions about both poverty reduction strategies and financial markets While this has encouraged new theorising about how microcredit works the practice of microcredit has itself evolved often in unpredictable ways outpacing the development of theory The Theory and Practice of Microcredit aims to remedy this imbalance arguing that a proper understanding of the evolution of practice is essential both for developing theories that are relevant for the real world and for adopting policies that can better realize the full potential of microcredit By drawing upon their first hand knowledge of the nature of this evolution in Bangladesh the birthplace of microcredit the authors have pushed the frontiers of current knowledge through a rich blend of theoretical and empirical analysis The book breaks new grounds on a wide range of topics including the habit forming nature of credit repayment the institutional strength and community based role of microfinance institutions the relationships between microcredit and informal credit markets the pattern of long term participation in microcredit programmes and the variety of loan use the scaling up of microenterprises beyond subsistence the missing middle in the credit market and the prospects of linking micro entrepreneurship with economic development The book will be of interest to researchers development practitioners and university students of Development Economics Rural Development or Rural Finance as well as to public intellectuals

The Dynamics of Asian Financial Integration Michael Devereux,Philip R Lane,Cyn-Young Park,Shang-Jin Wei,2011-05-03 The ongoing global financial crisis has manifested a remarkable degree of global financial integration and its implications for emerging Asian financial markets The current crisis will not and should not deter the progress that the region has made toward financial openness and integration However events like this clearly demonstrate that financial liberalization and integration is not without risks Hence emerging Asian economies growing financial ties have motivated us to look closer at the repercussions of increased financial integration and evaluate the benefits of risk sharing and better

access to international capital markets against the costs of cross border financial contagion The crisis also presents a timely opportunity for the region s policy makers to rethink their strategies for financial deregulation and liberalization and to reconsider a next step to integrate emerging East Asia s financial markets further However doing so requires deeper understanding of financial market integration While much has been said in both academic and policy circles about financial globalization and regional financial integration as separate areas of study existing research has been relatively silent on the dynamics between these two distinctive forces The book addresses this gap in financial literature and assesses financial integration in emerging East Asia at both regional and global levels The publication studies the factors driving the progress of regional financial integration in relation to financial globalization and identifies the relevant policy challenges facing emerging market economies in the region Chapters look into three broad aspects of regional and global financial market integration i measurement of regional and global financial integration ii understanding dynamics of regional financial integration versus global financial integration and iii welfare implications from regional financial market integration amid financial globalization Against this context academics policy makers and other readers will appreciate the rigorous research contribution provided by the book

Law and the Economy in Colonial India Tirthankar Roy, Anand V. Swamy, 2016-09-20 By accessibly recounting and analyzing the unique experience of institutions in colonial India which were influenced heavily by both British Common Law and indigenous Indian practices and traditions Law and the Economy in Colonial India sheds new light on what exactly fosters the types of institutions that have been key to economic development throughout world history more generally The culmination and years of research the book goes through a range of examples including textiles opium tea indigo tenancy credit and land mortgage to show how economic laws in colonial India were shaped neither by imported European ideas about how colonies should be ruled nor indigenous institutions but by the practice of producing and trading The book is an essential addition to Indian history and to some of the most fundamental questions in economic history

Women, Power, and Property Rachel E. Brulé, 2020-10-22 Quotas for women in government have swept the globe Yet we know little about their capacity to upend entrenched social political and economic hierarchies Women Power and Property explores this question within the context of India the world s largest democracy Brul employs a research design that maximizes causal inference alongside extensive field research to explain the relationship between political representation backlash and economic empowerment Her findings show that women in government gatekeepers catalyze access to fundamental economic rights to property Women in politics have the power to support constituent rights at critical junctures such as marriage negotiations when they can strike integrative solutions to intrahousehold bargaining Yet there is a paradox quotas are essential for enforcement of rights but they generate backlash against women who gain rights without bargaining leverage In this groundbreaking study Brul shows how well designed quotas can operate as a crucial tool to foster equality and benefit the women they are meant to empower

The Oxford Handbook of Post-Keynesian Economics, Volume 1

Geoffrey Colin Harcourt, Peter Kriesler, 2013-07 These two volumes cover the principal areas to which Post Keynesian economists have made distinctive contributions The contents include the significant criticism by Post Keynesians of mainstream economics but the emphasis is on positive Post Keynesian analysis of the economic problems of the modern world and of policies with which to tackle them *Managing Globalization in the Asian Century* Hal Hill, 2016-11-17 The global centre of gravity continues to shift to the Asia Pacific the most dynamic region in the world These economies have generally grown faster for longer periods of time than any other major region in world history Their embrace of globalization has been a central feature and driver of their dynamism The management of Asia Pacific economic integration and globalization is crucial not only for the countries themselves but also for the state of the global economy including importantly latecomer developing economies who look to the region for analytical and development policy lessons Twenty eight leading international authorities in the field drawn from nine countries provide a comprehensive examination of the causes consequences and challenges of globalization in a volume that celebrates the distinguished career of Professor Prema Chandra Athukorala Among the major issues examined are the region's distinctive approach to trade liberalization the effects of economic growth on poverty reduction and the labour market the special challenges of by passed regions the role of ideas in influencing policy making the modalities of connecting to global production networks and the importance of remittances in economic development Several country case studies provide in depth analyses of development processes and outcomes These include episodes in economic development the challenges faced by transition economies the macroeconomics of adjusting to slower growth and rising debt in advanced economies and the so called middle income trap phenomenon *Light Manufacturing in Africa* Hinh T. Dinh, Vincent Palmade, Vandana Chandra, Frances Cossar, 2012-02-23 This book argues that light manufacturing can offer a viable solution for Sub Saharan Africa given potential competitiveness based on low wage costs and an abundance of natural resources that supply raw materials needed for industries

Property Valuation and Market Cycle Maurizio d'Amato, Yener Coskun, 2022-09-28 This book discusses the role of the property market cycle in real estate valuation Challenging traditional property valuation methods that rely on current market conditions and economic trends this book argues for a re evaluation of the relationship between property valuation and cycles in property markets The book is divided into two parts The first part gathers research on property market cycle analysis and the delicate problems dealing with property market information including the development of the real estate market index appraisal bias and the use of time series in plotting the market cycle The second part proposes several possible modifications to the traditional income approach methodologies including cyclical capitalization and the hedonic price method Furthermore this part also addresses the need for amendments to current's property valuation standards and institutional regulations Written by an international cross section of expert voices in market cycles and property valuation the book is a comprehensive resource for any researcher or upper level student studying economic volatility

Innovative Experiences in Access to Finance Augusto

de la Torre, Juan Carlos Gozzi, Sergio L. Schmukler, 2017-06-23 Interest in access to finance and awareness of its importance have increased significantly since the early 2000s. Growing evidence suggests that lack of access to credit prevents many households and firms from financing high return investment projects which has an adverse effect on growth and poverty alleviation. Despite the increasing awareness of the importance of access to finance among both researchers and policymakers there are still some major gaps in our understanding of the main drivers of access as well as about the impact of different policies in this area. This book aims to fill some of these gaps by discussing recent innovative experiences in broadening access to credit in Latin America. These experiences are consistent with an emerging new view that while recognizing the central role of the public sector in improving the contractual and informational environment for financial markets also contends that there might be room for well designed restricted interventions in collaboration with the private sector to foster the development of financial markets and broaden access to them. In particular the book analyzes among other things some interesting experiences from Brazil, Chile, Colombia and Mexico that use different instruments to broaden access to credit in a sustainable way such as structured finance, factoring, credit guarantees and correspondent banking. Most of these experiences have led to financial innovation by developing new financial products and coordinating different players in the financial and real sectors to overcome barriers to access to credit. The book provides a first systematic analysis of these innovative experiences including an analytical framework to understand problems of access to finance and a discussion of the effects and optimal design of public interventions. Finally the book discusses some open policy questions about the role of the private and public sectors including state owned banks in broadening access to finance in a sustainable and market friendly manner.

Trade and Inclusive Growth International Monetary Fund, Marc Bacchetta, Valerie Cerra, Roberta Piermartini, Maarten Smeets, 2021-03-12 This paper surveys the literature on the relationship between international trade and inclusive growth. It examines claims that the rise in inequality in many countries can be attributed to the concurrent rise in trade competition especially from EMEs like China spurring trade tensions and protectionist measures. The paper investigates the conflicting literature showing the aggregate benefits of trade versus the adverse and persistent impact of trade especially import competition on specific industries and local communities. The paper then reviews the evidence for using trade policies and other complementary policies for adjustment and compensation to those groups adversely affected by trade.

Capitalism for Realists Tibor Rutar, 2022-11-18 In an age of extreme political polarization and waning of reasoned debate across political divides Capitalism for Realists carefully explores the inner workings of capitalism in a consciously non partisan and balanced way. Does the modern capitalist economy alleviate poverty and exploitation or exacerbate them? What exactly is neoliberalism and how well or poorly has it performed in the past 40 years? Does capitalism undermine democracy or is it rather one of its key necessary conditions? How have altruism, cooperation, tolerance, violence and trust fared under the influence of the modern market society? Should we analyse capitalism through the mainstream

economic lens or a more critical Marxist perspective This book offers answers to these questions Synthesizing decades of research across disciplines Capitalism for Realists offers an overarching perspective on the modern economy by theoretically unifying many of the claims and conclusions about it offered by various traditionally rivalrous social science paradigms such as institutional neoclassical and public choice economics on the one hand and Marxist sociology on the other The book presents and critically assesses the latest data and debates on such crucial contemporary issues as the relationship between poverty exploitation inequality and capitalism the nature of neoliberalism and the successes and failures of both state led industrial policy and the Washington consensus capitalist peace theory historical origins of modern capitalism and more What emerges is a clear picture of the merits and demerits of the modern economy too nuanced to be simplified and categorized by the prevailing political discourses Rich in empirical detail this lively accessible book will appeal to undergraduate and graduate students with interests in sociological theory political theory economics and political and economic sociology

IMF Staff Papers, Volume 50, No. 1 Mr. Robert P. Flood, 2003-04-17 Forty years ago Marcus Fleming and Robert Mundell developed independent models of macroeconomic policy in open economies Why do we link the two and why do we call the result the Mundell Fleming rather than Fleming Mundell model

The Routledge Companion to Bioethics John D. Arras, Elizabeth Fenton, Rebecca Kukla, 2014-12-05 The Routledge Companion to Bioethics is a comprehensive reference guide to a wide range of contemporary concerns in bioethics The volume orients the reader in a changing landscape shaped by globalization health disparities and rapidly advancing technologies Bioethics has begun a turn toward a systematic concern with social justice population health and public policy While also covering more traditional topics this volume fully captures this recent shift and foreshadows the resulting developments in bioethics It highlights emerging issues such as climate change transgender and medical tourism and re examines enduring topics such as autonomy end of life care and resource allocation

Industrial Policies Sandra Baquie, Yueling Huang, Ms. Florence Jaumotte, Jaden Kim, Rafael Machado Parente, Samuel Pienknagura, 2025-03-21 Industrial policies IPs are increasingly implemented necessitating a reassessment of their benefits and costs This study examines their economic and geopolitical drivers and their impact on targeted sectors While IPs yield moderate and uneven economic gains they are more effective when addressing highly distorted upstream sectors with suitable tools Structural reforms generally offer greater benefits and strengthen the link between IPs and economic performance However IPs may lead to significant fiscal costs and unintended spillovers potentially accelerating economic fragmentation Therefore careful management of IPs is crucial

Search and Research in Commerce and Management, The Changing Role of Property Law Ernst Nordtveit, 2023-01-17 This timely book analyses the most significant contemporary developments and trends in property law including the concept of property rights the role of property law and property rights in society and the values they enhance It examines the effect of property rights on social economic and cultural development and vice versa considering the impact of phenomena such as

technological innovation digitalisation and blockchain technology changes in social and economic organisation and globalisation
