*Nelson's Arctic Voyage* Peter Goodwin, 2019-05-16 In the summer of 1773 the 14 year old Horatio Nelson took part in an expedition to the Arctic which came close to ending his naval career before it had begun The expedition was to find a navigable northern passage between the Atlantic and Pacific and was supported by the Royal Society and King George III Two bomb vessels HMS Racehorse and Carcass were fitted out and strengthened under the command of Captain Hon Constantine Phipps It was an extremely cold Arctic summer and the ships became locked in ice far from Spitzbergen and were unable to cut their way out until days later when the wind changed and the ice broke up The ships were extricated and returned home On the trip the young Nelson had command of one of the smaller boats of the ships a four oared cutter manned by twelve seamen In this he helped to save the crew of a boat belonging to the Racehorse from an attack by a herd of enraged walruses He also had a more famous encounter with a polar bear while attempting to obtain a bearskin as a present for his father an exploit that later became part of the Nelson legend Drawing on the ship s journals and expedition commander Phipps journal from the National Archives the book creates a picture of the expedition and life on board Using the ships muster books it also details the ship s crews giving the different roles and ranks in the ships The book is illustrated using some of the ship s drawings and charts and pictures of many objects used on the ship while a navigational chart of the route taken has been created from the logbooks The book also looks at the overall concept of naval exploration as set in train by Joseph Banks and the Royal Society The fact that the expedition failed as a result of poor planning with potentially tragic results demonstrates the difficulties and uncertainties of such an expedition It also looks at a great naval commander at the earliest stage of his career and considers how the experience might have shaped his later career and attitudes Other great captains and voyages are discussed alongside Nelson including Captain Cook and his exploration of the south seas and the later ill fated northern journeys of Franklin and Shackleton

*1967 Mustang Reconstructive Surgery* Steve Gray, 2014-04-15 This book chronicles the reconstruction of a 1967 Mustang Coupe The Coupe started as a plain low value coupe Time gravity weather and use eventually caught up with the Coupe and it needed a serious make over The Coupe was converted from its existing 289 cubic inch carbureted motor to a 5 0 fuel injected engine At the same time it was converted from an automatic to manual transmission T 5 with overdrive The reconstruction took 7 years working on a part time basis Information is provided for reference only

**Dogfight** David Owen, 2015-06-20 Innumerable books have been published on the two most famous fighter aircraft of all time the Supermarine Spitfire and the Messerschmitt Bf109 But books setting out to tell the story of both aircraft are very much rarer probably fewer than the fingers of one hand Yet their joint story is one which bears retelling since both were essential to the air campaigns of World War Two Incredibly the men who designed them lacked any experience of designing a modern fighter R J Mitchell had begun his career working on industrial steam locomotives Willy Messerschmitt had cut his aeronautical teeth on light and fragile gliders and sporting planes Yet both men not only managed

to devise aircraft which could hold their own in a world where other designs went from state of the art to obsolete in a staggeringly short time but their fighters remained competitive over six years of front line combat Despite the different ways their creators approached their daunting tasks and the obstacles each faced in acceptance by the services for which they were designed they proved to be so closely matched that neither side gained a decisive advantage in a titanic struggle Had either of them not matched up to its opponent so well then the air war would have been a one sided catastrophe ending in a quick defeat for the Allies or the Axis powers and the course of twentieth century history would have been changed beyond recognition
