Margaret Paul, 2022-04-26. Inner Bonding is a proven six-step self-healing process that has been developed and optimized over 30 years by Dr. Margaret Paul, Ph.D., and Dr. Erika Chopich, Ph.D. It's comprehensive, it's practical, and it always works when you do it. In this book, Margaret, through the powerful Six-Step Inner Bonding pathway, shows how you can create and maintain the inner safety you need so you can become strong enough to love. Inner Bonding empowers you to self-heal the root causes of anxiety, depression, addictions, failed relationships, and many other problems that inhibit your personal and spiritual growth and satisfaction. It teaches you how to love yourself rather than continue to abandon yourself, how to move beyond emotional dependency and attain emotional freedom, and how to heal any underlying control issues. In friendships, marriages, and work relationships, your joy, aliveness, and creativity get lost as you give up parts of yourself in an attempt to feel safe. In romantic relationships, passion dries up. Superficiality, boredom, fighting, and apathy take its place. You try valiantly to figure out what went wrong. But too often you might ask, "What am I doing wrong?" or "What are you doing wrong?" rather than inquiring into the underlying fears and resulting self-abandoning behaviors that create the unsafe relationship space. The key to doing this is learning how to create a safe inner space where you can work with and overcome your false beliefs and your fears of rejection and engulfment. This is a process, not an event. *The Anatomy of Love*, Hugo Bradford, Some teach you how to love and stay in love. But nobody tells you what love is or how to acquire it when you don't have it. How are you supposed to love someone and find happiness if you don't love yourself or find happiness within? First, Hugo Bradford's life changed in an instant when his relationship ended with who might have been the love of his life. Then he failed once again when he decided to be a different man, a better man. Hugo then set on a path of introspection and healing by researching through the sciences and submerging himself with the voices of experts, experience, and the opinion of women. All to answer one underlying question: what is love? *The Anatomy of Love* is as sensible as it is perceptive. Tackling the third most searched word worldwide, Love. A simple four-letter word that produces over fourteen billion search results on search engines across the internet. Is love something as simple as an evolutionary trait of consciousness and chemical potion in our brains? Or does it
