Counterfactual Thinking - Counterfactual Writing Dorothee Birke, Michael Butter, Tilmann Köppe, 2011-11-30 Counterfactuality is currently a hotly debated topic While for some disciplines such as linguistics cognitive science or psychology counterfactual scenarios have been an important object of study for quite a while counterfactual thinking has in recent years emerged as a method of study for other disciplines most notably the social sciences This volume provides an overview of the current definitions and uses of the concept of counterfactuality in philosophy historiography political sciences psychology linguistics physics and literary studies The individual contributions not only engage the controversies that the deployment of counterfactual thinking as a method still generates they also highlight the concept's potential to promote interdisciplinary exchange without neglecting the limitations and pitfalls of such a project Moreover the essays from literary studies which make up about half of the volume provide both a historical and a systematic perspective on the manifold ways in which counterfactual scenarios can be incorporated into and deployed in literary texts

The Moving Form of Film Lúcia Nagib, Stefan Solomon, 2023 The Moving Form of Film Historicizing the Medium through Other Media charts the ways in which crossing borders between film and other arts and media can provide an encompassing inclusive and non teleological understanding of film history Evolutionary narratives of cinema have traditionally adopted the Second World War as a watershed that separates classical Hollywood films from modern European productions a scheme that subjects the entire world to the cinematic history of two hegemonic centres In turn histories of film as a technological medium have focused on the specificity of cinema as it gradually separated from the other art and medial forms theatre dance fairground spectacle painting literature still photography and other pre cinematic modes Taking an ambitious step forward with relation to these approaches this book focuses on the fluid quality of the film form by exploring an array of exciting and often neglected artistic expressions worldwide as they compare and interconnect films across temporal geographical and cultural borders By observing the ebb and flow of film's contours within the bounds of other artistic and medial expressions the chapters aspire to establish a flexible historical platform for the moving form of film posited from production to consumption as a transforming and transformative medium

Playing the Text, Performing the Future Felicitas Meifert-Menhard, 2013-10-14 This volume examines the structure of text based Future Narratives in the widest sense including choose your own adventure books forking path novels combinatorial literature hypertexts interactive fiction and alternate reality games How radical can printed Future Narratives really be given the constraints of their media When exactly do they not only play with the mere idea of multiple continuations but actually stage genuine openness and

potentiality Process rather than product oriented text based Future Narratives are seen as performative and contingent systems simulating their own emergence *The Ulysses Delusion* Cecilia Konchar Farr, 2016-04-08 Popular fiction follows literature professors wherever they go At coffee shops or out for drinks after faculty meetings or classes even at family reunions they are persistently pressed to talk about bestselling novels Questions immediately follow What do I mean when I say a book is good Why do contemporary novels like these conversations like these matter to professors of literature Shouldn't they be spending their time re-reading *The Great Gatsby* *The Ulysses Delusion* confronts these questions and answers their call for more engaged conversations about books Through topics like the Oprah's Book Club Harry Potter and Chick Lit Cecilia Konchar Farr explores the lively democratic and gendered history of novels in the US as a context for understanding how avid readers and literary professionals have come to assess them so differently What Is Your Quest? Anastasia Salter, 2014-11-01 *What Is Your Quest* examines the future of electronic literature in a world where tablets and e-readers are becoming as common as printed books and where fans are blurring the distinction between reader and author The construction of new ways of storytelling is already underway it is happening on the edges of the mainstream gaming industry and in the spaces between media on the foundations set by classic games Along these margins convergent storytelling allows for playful reading and reading becomes a strategy of play One of the earliest models for this new way of telling stories was the adventure game the kind of game centered on quests in which the characters must overcome obstacles and puzzles After they fell out of fashion in the 1990s fans made strenuous efforts to keep them alive and to create new games in the genre Such activities highlight both the convergence of game and story and the collapsing distinction between reader and author Continually defying the forces of obsolescence fans return abandoned games to a playable state and treat stories as ever-evolving narratives Similarly players of massive multiplayer games become co-creators of the game experience building characters and creating social networks that recombine a reading and gaming community The interactions between storytellers and readers between programmers and creators and among fans turned world builders are essential to the development of innovative ways of telling stories And at the same time that fan activities foster the convergence of digital gaming and storytelling new and increasingly accessible tools and models for interactive narrative empower a broadening range of storytellers It is precisely this interactivity among a range of users surrounding these new platforms that is radically reshaping both e-books and games and those who read and play with them *Newsweek* Raymond Moley, Samuel Thurston Williamson, Malcolm Muir, Rex Smith, Joseph Becker Phillips, 2007 **Newsweek**, 2007 *School Library Journal*, 2007
