was changing around him The bombing of the Cole was al Qaeda s first direct assault against the United States and expanded their brazen and deadly string of terrorist attacks throughout the Middle East In this gripping first person narrative Lippold reveals the details of this harrowing experience leading his crew of valiant sailors through the attack and its aftermath Seventeen sailors died in the explosion and thirty seven were wounded but thanks to the valor of the crew in the perilous days that followed the ship was saved Yet even with al Qaeda s intentions made clear in an unmistakable act of war the United States government delayed retaliating Bureaucrats and politicians sought to shift and pin blame as they ignored the danger signaled by the attack shirking responsibility until the event was ultimately overshadowed by 9 11 Front Burner captures a critical moment in America s battle against al Qaeda telling a vital story that has until now been lost in the fog of the war on terror *Astronauts* Giles Sparrow,2006 Discusses the race for space and the astronauts who were involved

international prestige of winning the Moon Race cannot be understated and Grissom played a pivotal and enduring role in securing that legacy for the United States Indeed Grissom was first and foremost a Cold Warrior a member of the first group of Mercury astronauts whose goal it was to beat the Soviet Union into space and eventually to the moon Drawing on extensive interviews with fellow astronauts NASA engineers family members and friends of Gus Grissom George Leopold delivers a comprehensive and corrective account of Grissom s life that places his career in the context of the Cold War and the history of human spaceflight Calculated Risk The Supersonic Life and Times of Gus Grissom adds significantly to our understanding of that tumultuous and ultimately triumphant period in American history **Selecting the Mercury Seven**

*What the Small Gray Visitor Said* Stephanie C. Fox, 2020-08-26 It isn't often that a visitor from outer space gets stranded on Earth but it happens every so often When it does it's an accident No one intends to get stranded anywhere after all This visitor is female a botanist and a telepath The alien carries a Small Gray environmental suit with her She is looking for plants that can be grown on her own

planet's severely depleted ecosystem. The alien has just uprooted one when she finds herself stuck on Earth during a planet-wide pandemic. It is a spring day when Arielle, an author and editor for hire, spends her morning as she usually does: writing, editing, blogging, drinking coffee, and sitting with her cat while looking out the back windows into her yard. She gets up to stretch and takes a walk around her beautiful garden to enjoy some sunshine, smell a few iris blossoms, and survey her berries and herbs. Suddenly, she sees something under her honeysuckle bush. At first, she thinks it is discarded plastic litter that has blown around the area, and she picks it up in disgust only to see that it is gray as light as a feather and definitely not plastic. It has a face or rather a face covering. Arielle glances up to find herself face to face with a stranded visitor, the owner of the suit she is holding. She takes her in after her husband, a scientist, tests them both for the virus. The tests come back negative, of course. The aliens, anticipating microbes that are not endemic to their own world, have immunized themselves against Earth's pathogens before venturing out of their ship. Find out what happens next and what the Small Gray Visitor said while she was here.
