

Lesson Plan: Discovering Theme Through Shirley Jackson's *The Lottery* with a Classroom Jigsaw

****Lesson intended to be taught after students have read the story.****

Objectives:

- I. Students will be able to define literary theme.
- II. Students will be able to determine a theme of *The Lottery* by analyzing quotes from the story.
- III. Students will be able to connect themes within *The Lottery* to their lives.

Materials:

- Worksheet for each student
- Quote strip for each student (directions on PowerPoint in zip drive)
- Texts of *The Lottery*

Preparation:

- Due to copyright restrictions, full quotes cannot be printed here but directions are included in the accompanying PowerPoint within this zip drive. You will need 1 quote strip for each student to print out as many as one needed for your class.
- Print worksheet (double-sided if possible) for each student.

As students enter the room, distribute 1 quote strip and 1 worksheet per student.

Warm-up:

"In your own words, what is theme?" 2-3 min writing time, then share responses. Work to come up with a class definition for theme and write on the board. Something along the lines of: "the underlying meaning a writer explores in a literary work."

Explanation:

Address class: "In order for us to come to a deeper understanding of what is going on beneath the surface of this dark tale, we will be performing a close reading of several of the story's prominent quotes that deal with tradition and human nature. We will do this by way of a Classroom Jigsaw. When you walked into the room, each of you received a quote. Look at the number on the quote....."

Berry III, Basil M. Conway IV, Brian R. Lawler, John W.

Staley, 2020-03-09 Empower students to be the change join the teaching mathematics for social justice movement We live in an era in which students have through various media and their lived experiences a more visceral experience of social economic and environmental injustices However when people think of social justice mathematics is rarely the first thing that comes to mind Through model lessons developed by over 30 diverse contributors this book brings seemingly abstract high school mathematics content to life by connecting it to the issues students see and want to change in the world Along with expert guidance from the lead authors the lessons in this book explain how to teach mathematics for self and community empowerment It walks teachers step by step through the process of using mathematics across all high school content domains as a tool to explore understand and respond to issues of social injustice including environmental injustice wealth inequality food insecurity and gender LGBTQ and racial discrimination This book features Content cross referenced by mathematical concept and social issues Downloadable instructional materials for student use User friendly and logical interior design for daily use Guidance for designing and implementing social justice lessons driven by your own students unique passions and challenges Timelier than ever teaching mathematics through the lens of social justice will connect content to students daily lives fortify their mathematical understanding and expose them to issues that will make them responsive citizens and leaders in the future Researching Race in Education Adrienne D. Dixon, 2014-06-01 In traditional educational research race is treated as merely a variable In 1995 Gloria Ladson Billings and William F Tate IV argued that race is under theorized in education and called for educational researchers to pay closer attention to the relationship between race and educational inequity Ladson Billings and Tate 1995 In particular they argued drawing on legal scholar Derrick Bell s notion of Racial Realism Bell 1995 that racialized inequities are not accidental or aberrant rather racialized educational inequities are the result of particular and specific policies and practices that are designed to maintain particular forms of dominance and marginalization More specifically Bell and later Ladson Billings and Tate argue that racial inequity persists despite liberal policies and legislation that were ostensibly designed to eradicate it The Racial Realist perspective takes into the consideration the longevity and history of racism racial inequity and White supremacy in the U S and serves as a mirror to reflect back the limitations of proposed policies and legislation that fail to address those issues In this way Critical Race Theory and the scholars who draw on CRT view our work as an important check and balance in the effort

solving *Inside Ocean Hill*□Brownsville Charles S. Isaacs,2014-05-09 The story of an Ocean Hill Brownsville teacher who crossed picket lines during the racially charged New York City teachers strike of 1968 In 1968 the conflict that erupted over community control of the New York City public schools was centered in the black and Puerto Rican community of Ocean Hill Brownsville It triggered what remains the longest teachers strike in US history That clash between the city s communities of color and the white predominantly Jewish teachers union paralyzed the nation s largest school system undermined the city s economy and heightened racial tensions ultimately transforming the national conversation about race relations At age twenty two when the strike was imminent Charles S Isaacs abandoned his full scholarship to a prestigious law school to teach mathematics in Ocean Hill Brownsville Despite his Jewish background and pro union leanings Isaacs crossed picket lines manned by teachers who looked like him and took the side of parents and children who did not He now tells the story of this conflict not only from inside the experimental community controlled Ocean Hill Brownsville district its focal point but from within ground zero itself Junior High School 271 which became the nation s most famous or infamous public school Isaacs brings to life the innovative teaching practices that community control made possible and the relationships that developed in the district among its white teachers and its black and Puerto Rican parents teachers and community activists *Inside Ocean Hill Brownsville* is one of the finest accounts of this turbulent time in America s educational history As a firsthand analysis of a teacher embroiled in the Ocean Hill Brownsville community fight for educational justice it has no peer From its vantage point forty five years after the conflict we finally have a corrective to a plethora of secondhand analyses that have been written over the years It is a candid picture that I recommend highly Maurice R Berube coeditor of *Confrontation at Ocean Hill Brownsville* *Inside Ocean Hill Brownsville* makes a vital contribution to a much needed reinterpretation of the epochal struggles over community control of the New York City public schools in the 1960s and the divisive UFT fall 1968 strikes in opposition to that community based movement Writing from the firsthand perspective of a young Jewish math teacher at JHS 271 Isaacs brings this important story vividly to life with insight candor and humor He evokes the attitudes and actions of a rich array of ordinary teachers administrators students and parents who fought to defend the community control experiment in the face of the lies and distortions perpetrated by UFT officials and the mainstream press A must read for anyone interested in creating successful public schools this book helps us remember what democratic public education might look like Stephen Brier The Graduate Center City University of New York Charles Isaacs s *Inside Ocean Hill Brownsville* is a firsthand account of the dramatic events of New York City s greatest school crisis Isaacs debunks many of the popular myths of black militants waging assaults on teachers Instead he demonstrates that the episode in Ocean Hill Brownsville was a case of black and Latino parents with the support of a number of teachers at JHS 271 struggling for the education of their children and for a more democratically run educational system These parents faced one of the most powerful unions in the city and a bureaucratic board of education that wanted to protect the status quo There have been many books written on the 1968

teachers strike but Isaacs's well-written detailed account is by far the best Clarence Taylor author of *Knocking at Our Own Door* Milton A. Galamison and the Struggle to Integrate New York City Schools *A Fight for the Soul of Public Education* Steven Ashby, Robert Bruno, 2016-11-04 In reaction to the changes imposed on public schools across the country in the name of education reform the Chicago Teachers Union redefined its traditional role and waged a multidimensional fight that produced a community-wide school strike and transformed the scope of collective bargaining into arenas that few labor relations experts thought possible Using interviews first person accounts participant observation union documents and media reports Steven K. Ashby and Robert Bruno tell the story of the 2012 strike that shut down the Chicago school system for seven days *A Fight for the Soul of Public Education* takes into account two overlapping parallel and equally important stories One is a grassroots story of worker activism told from the perspective of rank and file union members and their community supporters Ashby and Bruno provide a detailed account of how the strike became an international cause when other teachers unions had largely surrendered to corporate-driven education reform The second story describes the role of state and national politics in imposing educational governance changes on public schools and draconian limitations on union bargaining rights It includes a detailed account of the actual bargaining process revealing the mundane and the transcendental strategies of both school board and union representatives Mass Market Medieval David W. Marshall, 2007-04-11 Beginning in 1976 with the first issue of the journal *Studies in Medievalism* all things medieval and the concept of medievalism became a hot topic in culture studies Medievalism examines how different groups individuals or eras use and shape the image of the Middle Ages differentiating between historical knowledge of the Middle Ages and what we have made the period out to be The 13 essays in this book explore the medieval invasion of today's media and consider the various ways from film and print to websites and video games that the Middle Ages have been packaged for consumption Essays encompass diverse theoretical perspectives and are grouped loosely around distinct functions of medievalism including the exposure of recent social concerns the use of medieval images in modern political contexts and the medieval's influence on products of today's popular culture The legitimization of the study of medievalism and the effect of medievalism on the more traditional subject of medieval studies are also discussed Instructors considering this book for use in a course may request an examination copy here **Journeys of Charter School Creators** Maria M. Leahy, Rebecca A. Shore, 2018-12-28 *Journeys of Charter School Creators* tells of the journeys of ten thriving charter schools throughout the United States and their leaders over the past 20 years The first seven cases are follow-up stories from the original book published in 2004 *Adventures of Charter School Creators* Leading from the Ground Up The final three cases feature three North Carolina charter schools and their leaders Each leader's narrative reveals amazing journeys with different paths taken different choices made however these leaders were all entrepreneurs with a passion to guide their schools for the long haul toward success with a specific mission and vision to improve educational opportunities and a better future for a specific

group of children Readers will learn through the firsthand experiences of these charter school leaders lessons on leading in the challenging charter school world a rewarding yet somewhat tumultuous journey of growth and innovation **Teachers**
