Readings in sense lines The Jewish Tribune and Hebrew Standard ,1923 **Perfecting Friendship** Ivy Schweitzer,2007-09-06 Contemporary notions of friendship regularly place it in the private sphere associated with feminized forms of sympathy and affection As Ivy Schweitzer explains however this perception leads to a misunderstanding of American history In an exploration of early American literature and culture Schweitzer uncovers friendships built on a classical model that is both public and political in nature Schweitzer begins with Aristotle s ideal of perfect friendship that positions freely chosen relationships among equals as the highest realization of ethical social and political bonds Evidence in works by John Winthrop Hannah Foster James Fenimore Cooper and Catharine Sedgwick confirms that this classical model shaped early American concepts of friendship and thus democracy Schweitzer argues that recognizing the centrality of friendship as a cultural institution is critical to understanding the rationales for consolidating power among white males in the young nation She also demonstrates how women nonelite groups and minorities have appropriated and redefined the discourse of perfect friendship making equality its result rather than its requirement By recovering the public nature of friendship Schweitzer establishes discourse about affection and affiliation as a central component of American identity and democratic community

concern in today's world in which narrow self interest has blinded us to the growing pollution of atmosphere and seas and the destruction of animal species caused by our indifference and neglect Christianity has been blamed in part for this because of a misunderstanding of the Biblical call to have dominion over creation Our spiritual tradition has indeed so focused on human salvation that the Earth has been seen simply as a transient environment that will be left behind in the end In response this little book highlights another spiritual tradition within Western Christianity that affirms that creation itself will also be transformed with humanity through the self emptying love of God God's dominion after all is service rather than despotic control the raising up of the lowly of this Earth and of the Earth itself as part of a cosmic community The Spiritual Exercises of St Ignatius are examined in this light as a call not only to join Christ in redeeming humanity but also in extending Christ's care and love to all creation that longs for the freedom of the children of God Our Dumb Animals ,1911
