**The Ashgate Research Companion to Minimalist and Postminimalist Music** Keith Potter, Kyle Gann, 2016-03-23 In recent years the music of minimalist composers such as La Monte Young Terry Riley Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject

**God in the Corridors of Power** Michael Ryan, Les Switzer, 2009-08-25 God in the Corridors of Power Christian Conservatives the Media and Politics in America is a comprehensive study of Christian conservative power in America's political culture how it was achieved how it is maintained and where it is going It came about in part because of an enduring influence in the school room the seminary and in the pulpit and in part because conservatives are so skilled at using commercial and non commercial media including religious media to disseminate their views to broader audiences Though their power has waxed and waned they continue to be a potent force in public policy today The authors argue that the astonishing electoral successes of Christian conservatives at all levels of national state and local government was made possible by linking political social media and religious interests with an emerging consensus about what constitutes a conservative mindset in American politics Christian conservatives unquestionably have been the most significant component in a coalition of religious conservatives traditionalist conservatives and neoconservatives that has driven the Republican Party now for almost two generations This multifaceted understanding of Christian conservative activists in religion and politics traces the impact Christian conservatives have had on American Christianity as a whole while also examining the limitations imposed on the Christian conservative agenda by American civil religion the Constitution and case law The authors explore women's reproductive rights in the debate over contraception and abortion and gay civil rights in the debate over gay marriage and family rights The debate over intelligent design and

evolution is examined in the context of the campaign to transform public school education The run up to the wars in Afghanistan and Iraq is scrutinized against the background of the declared war on terrorism While the conservative religious and secular coalition within the Republican Party began to fragment even before the end of George W Bush s first term in office it remained a powerful force in the 2004 and 2008 elections The book concludes with some thoughts about the impact of Christian conservatives in politics media and religion in the future

*Rhetoric in Human Rights Advocacy* Richard K. Ghere, 2015-04-22 This book examines the rhetoric of various exemplars who advocate for causes and actions pertaining to human rights in particular contexts Although some of these exemplars champion human rights others are human rights antagonists Simply put the argument here is that concern for how particular individuals advocate for human rights causes as well as how antagonists obstruct such initiatives adds significant value to understanding the successes and failures of human rights efforts in particular cultural and national contexts On one hand we can grasp how specific international organizations and actors function to develop norms for example the rights of the child and how rights are subsequently articulated in universal declarations and formal codes But on the other it becomes apparent that the actual meaning of those rights mutate when accepted within particular cultures A complementary facet of this argument relates to the centrality of rhetoric in observing how rights advocates function in practice specifically rhetoric focuses upon the art of argumentation and the various strategies and techniques enlisted therein In that much of the reality surrounding human rights from the standpoints of advocates and antagonists alike is fundamentally interpretive rhetorical or argumentative skill is of vital importance for advocates as competent pragma dialecticians in presenting the case that a rights ideal can enhance life in a culture predisposed to reject that ideal This book includes case studies focusing on the rhetoric of the following individuals or groups as either human rights advocates or antagonists Mary B Anderson Rwandan hate radio broadcasters politicians and military officials connected with the Kent State University and Tiananmen Square student protest tragedies Iqbal Masih Pussy Riot Lyndon Johnson Julian Assange Geert Wilders Daniel Barenboim Joe Arpaio and Lucius Banda

[The Passions of Peter Sellars](#) Susan McClary, 2019-01-25 Recognized as one of the most innovative and influential directors of our time Peter Sellars has produced acclaimed and often controversial versions of many beloved operas and oratorios He has also collaborated with several composers including John C Adams and Kaija Saariaho to create challenging new operas The Passions of Peter Sellars follows the development of his style beginning with his interpretations of the Mozart Da Ponte operas proceeding to works for which he assembled the libretti and even the music and concluding with his celebrated stagings of Bach s passions with the Berlin Philharmonic Many directors leave the musical aspects of opera entirely to the singers and conductor Sellars however immerses himself in the score and has created a distinctive visual vocabulary to embody musical gesture on stage drawing on the energies of the music as he shapes characters ensemble interaction and large scale dramatic trajectories As a leading scholar of gender and music and the history of opera Susan McClary is ideally positioned to illuminate Sellars s goal to address both the social tensions embodied in these operas as well as the spiritual dimensions of operatic performance McClary considers Sellars s

productions of Mozart's *Le nozze di Figaro*, Don Giovanni and *Cos fan tutte*; Handel's *Theodora*; Messiaen's *Saint François d'Assise*; John C. Adams's *Nixon in China*, *The Death of Klinghoffer*, *El Niño* and *Doctor Atomic*; Kaija Saariaho's *L'amour de loin*, *La Passion de Simone* and *Only the Sound Remains*; Purcell's *The Indian Queen* and Bach's passions of Saint Matthew and Saint John. Approaching Sellars's theatrical strategies from a musicological perspective, McClary blends insights from theater, film, and literary scholarship to explore the work of one of the most brilliant living interpreters of opera. *An Enduring Quest*. Ferd Leimkuhler, 2019-07-15. The process of industrialization that began over two hundred years ago is continuing to change the way people work and live, and doing it very rapidly in places like China and India. At the forefront of this movement is the profession of industrial engineering that develops and applies the technology that drives industrialization. This book describes how industrial engineering evolved over the past two centuries, developing methods and principles for the planning, design, and control of production and service systems. The story focuses on the growth of the discipline at Purdue University, where it helped shape the university itself and made substantial contributions to the industrialization of America and the world. The story includes colorful and creative people like Frank and Lillian Gilbreth of Cheaper by the Dozen fame. Lillian was the first lady of American engineering as well as a founder of Purdue's Industrial Engineering. San Francisco and the Long 60s. Sarah Hill, 2016-01-14. San Francisco and the Long 60s tells the fascinating story of the legacy of popular music in San Francisco between the years 1965-69. It is also a chronicle of the impact this brief cultural flowering has continued to have in the city and more widely in American culture right up to the present day. The aim of San Francisco and the Long 60s is to question the standard historical narrative of the time, situating the local popular music of the 1960s in the city's contemporary artistic and literary cultures at once visionary and hallucinatory, experimental and traditional, singular and universal. These qualities defined the aesthetic experience of the local culture in the 1960s and continue to inform the cultural and social life of the Bay Area even fifty years later. The brief period 1965-69 marks the emergence of the psychedelic counterculture in the Haight-Ashbury neighbourhood, the development of a local musical sound into a mainstream international style, the mythologizing of the Haight-Ashbury as the destination for seekers in the Summer of Love, and the ultimate dispersal of the original hippie community to outlying counties in the greater Bay Area and beyond. San Francisco and the Long 60s charts this period with the references to received historical accounts of the time, the musical, visual, and literary communications from the counterculture, and retrospective glances from members of the 1960s Haight community via extensive first-hand interviews. Nalini Ghuman, 2014. During the century of British rule of the Indian subcontinent, known as the British Raj, the rulers felt the significant influence of their exotic subjects. *Resonances of the Raj* examines the ramifications of the intertwined and overlapping histories of Britain and

India on English music in the last fifty years of the colonial encounter and traces the effects of the Raj on the English musical imagination. Conventional narratives depict a one way influence of Britain on India with the discovery of Indian classical music occurring only in the post colonial era. Drawing on new archival sources and approaches in cultural studies, author Nalini Ghuman shows that on the contrary, England was both deeply aware of and heavily influenced by India musically during the Indian British colonial encounter. Case studies of representative figures including composers Edward Elgar and Gustav Holst and Maud MacCarthy, an ethnomusicologist and performer of the era, integrate music directly into the cultural history of the British Raj. Ghuman thus reveals unexpected minglings of peoples' musics and ideas that raise questions about Englishness, the nature of Empire and the fixedness of identity. Richly illustrated with analytical music examples and archival photographs and documents, many of which appear here in print for the first time, *Resonances of the Raj* brings fresh hearings to both familiar and little known musics of the time and reveals a rich and complex history of cross cultural musical imaginings which leads to a reappraisal of the accepted historiographies of both British musical culture and of Indo Western fusion. *The Oxford Handbook of Faust in Music*, Lorna Fitzsimmons, Charles McKnight, 2019. Since its emergence in sixteenth century Germany, the magician Faust's quest has become one of the most profound themes in Western history. Though variants are found across all media, few adaptations have met with greater acclaim than in music. Bringing together more than two dozen authors in a foundational volume, *The Oxford Handbook of Faust in Music* testifies to the spectacular impact the Faust theme has exerted over the centuries. The Handbook's three part organization enables readers to follow the evolution of Faust in music across time and stylistic periods. Part I explores symphonic, choral, chamber and solo Faust works by composers from Beethoven to Schnittke. Part II discusses the range of Faustian operas, and Part III examines Faust's presence in ballet and musical theater. Illustrating the interdisciplinary relationships between music and literature and the fascinating tapestry of intertextual relationships among the works of Faustian music themselves, the volume suggests that rather than merely retelling the story of Faust, these musical compositions contribute significant insights on the tale and its unrivalled cultural impact.

**Performing History**, Nancy November, 2020-08-25. The fifteen essays of *Performing History* glimpse the diverse ways music historians do history and the diverse ways in which music histories matter. This book's chapters are structured into six key areas: historically informed performance, ethnomusicological perspectives, particular musical works that tell, enact or perform war histories, operatic works that work, works that tell, enact or perform power or enlightenment, musical works that deploy the body and a broad range of senses to convey histories, and histories involving popular music and performance. Diverse lines of evidence and manifold methodologies are represented here, ranging from traditional historical archival research to interviewing, performing and composing. The modes of analyzing music and its associated texts represented here are as various as the kinds of evidence explored, including for example, reading historical accounts against other contextual backdrops and reading between the lines to access other voices than those provided by
