**Elgar Encyclopedia of Services** Faïz Gallouj, Camal Gallouj, Marie-Christine Monnoyer, Luis Rubalcaba, 2023-01-17 The Encyclopedia of Services is a ground breaking resource that offers a unique overview of what

constitutes the main source of wealth and employment in our contemporary economies namely services This title contains one or more Open Access chapters      **Framing Innovation in Public Service Sectors** Rolf Rønning,Bo Enquist,Lars Fuglsang,2014-05-09 Innovation is seen as an interactive process that involves many actors within and across organizational boundaries In public sector services innovation is a frequent often holistic and multi layered process that involves many actors and many services at the same time However most of the existing literature on innovation in public sector services is based on the economics of innovation which is heavily influenced by investigations of the private sector Innovation in the Public Sector develops a more context sensitive and rich approach in order to explore the different logics of innovation that prevail here Rather than presenting a general theory of innovation the book specifies how innovation and value creation are interconnected with social and institutional elements Analytical constructs including dynamic capability absorptive capacity and practice based approaches are reviewed and anchored in the organizational context of public sector services Such a perspective on innovation can help us develop new understandings of the process and history of innovation contributing to processual organizational analysis in a broader sense and further developing present theories of organizational change

*The Introduction of e-Government in Switzerland* Tereza Cahlikova,2021-08-08 This book studies the question of e Government development from a multi faceted perceptive The first introductory chapter outlines the importance of public sector digitalisation The second chapter clarifies the used e Government terminology and divides the concept between electronic public service delivery and electronic practice of democracy Influential factors having an impact on the introduction of e Government projects are divided between those of organisational institutional individual and technological nature and discussed in detail in the third chapter The fourth chapter presents empirical findings from the Swiss case study that constitutes both an exceptional and exemplary model of e Government development High quality of public services and the participative style of democracy would seem to predestine the country to be the precursor in the field of e Government However the state of e Government development does not correspond to the potential that Swiss contextual conditions offer The importance of the Swiss case study for the understanding of e Government as an institutional and organisational transformation is outlined in the fifth chapter      *Beyond Bureaucracy* Alois A. Paulin,Leonidas G. Anthopoulos,Christopher G. Reddick,2017-04-22 This book examines the role of bureaucracy in modern technologically advanced societies the traditional models of governance and the potential of information technology to fundamentally change and improve governance In the area of public domain governance information and communication technologies ICTs have empowered public agencies to improve their activities and to strengthen the efficiency of their operations Technology has enabled optimized transfer of knowledge and information between government agencies more efficient supervision and control of relationships with citizens and higher efficiency in law enforcement through better access to information Throughout the last decades technology has been used to strengthen the role of state bureaucracies and the relationship between the civil service

and the citizens We have witnessed the transformative powers of ICTs in private sector enterprises in well structured technological landscapes which has produced new ecosystems comprised of software developers providers and consumers who provide and consume new products and services in ecosystems that are based on clear technological standards and shared modular generic artefacts which allow for distributed peer production ICTs will shape cultural and civic discourse and create products services and tools relying on the open toolsets technologies and exchange of knowledge between peers This book will be of particular interest to government CIOs IT IS managers researchers students and practitioners in technical sciences public administration business management public policy and IS management *Organizational Innovation in Public Services* P.
