New German Cinema of the 1970s Combining historical political and textual analysis the author develops a pattern of cinematic invention and experimentation from neorealism through the modernist interventions of Jean Luc Godard and Rainer Maria Fassbinder focusing along the way on such major figures as Luis Buñuel Joseph Losey the Brazilian director Glauber Rocha and the work of major Cuban filmmakers Kolker's book has become a much quoted classic in the field of film studies providing essential reading for anybody interested in understanding the history of European and international cinema This new and revised edition includes a substantive new Preface by the author and an updated Bibliography **Luis Bunuel** Raymond Durgnat,1977 Examines the work of one of the cinema's most important directors **Plotting Women** Jean Franco,1989 Where is the common ground for feminist theory and Latin American culture Jean Franco explores Mexican women's struggle for interpretive power in relation to the Catholic religion the nation and post modern society and examines the writings of women who wrote under the shadow of recognized male writers as well as the works of more marginal figures In this original and skillfully written book Franco demonstrates the many feminisms that emerge in apparently rigid and adverse situations and provides the foundation for a more comprehensive less ethnocentric feminist theory Bunuel and Mexico Ernesto R. Acevedo-Muñoz,2025-03-18 Though Luis Buñuel one of the most important filmmakers of the twentieth century spent his most productive years as a director in Mexico film histories and criticism invariably pay little attention to his work during this period The only book length English language study of Buñuel's Mexican films this book is the first to explore a significant but neglected area of this filmmaker's distinguished career and thus to fill a gap in our appreciation and understanding of both Buñuel's achievement and the history of Mexican film Ernesto Acevedo Muñoz considers Buñuel's Mexican films made between 1947 and 1965 within the context of a national and nationalist film industry comparing the filmmaker's employment of styles genres character types themes and techniques to those most characteristic of Mexican cinema In this study Buñuel's films emerge as a link between the Classical Mexican cinema of the 1930s through the 1950s and the new Cinema of the 1960s flourishing in a time of crisis for the national film industry and introducing some of the stylistic and conceptual changes that would revitalize Mexican cinema *The Cinema of Cruelty* André Bazin,2013-03-06 Perhaps the single most important voice of cinema in the twentieth century Andr Bazin profoundly influenced the development of the scholarship that we know now as film criticism Bazin has acutely analyzed the cinematic values of our time extending to his international audiences the impact of art for the understanding and discrimination of his readers The depth and logic of his commentary has elevated film criticism to new heights The reputation of Andr Bazin continues to grow as his writings are published and studied by filmmakers and filmgoers alike Often referred to as the Edmund Wilson of film Bazin was more than a critic He made me see certain aspects of my work that I was unaware of said Luis Buñuel He was our conscience wrote Jean Renoir He was a logician in action echoed François Truffaut In *The Cinema of Cruelty* François Truffaut one of France's most celebrated and versatile filmmakers has collected Bazin's writings on six film greats Erich von Stroheim

Carl Dreyer Preston Sturges Luis Buñuel Alfred Hitchcock and Akira Kurosawa The result is a major collection of film criticism

Slums on Screen Igor Krstic, 2016-04-08 Near to one billion people call slums their home making it a reasonable claim to describe our world as a planet of slums But how has this hard and unyielding way of life been depicted on screen How have filmmakers engaged historically and across the globe with the social conditions of what is often perceived as the world's most miserable habitats Combining approaches from cultural globalisation and film studies Igor Krstic outlines a transnational history of films that either document or fictionalise the favelas shantytowns barrios populares or chawls of our planet of slums exploring the way accelerated urbanisation has intersected with an increasingly interconnected global film culture From Jacob Riis *How The Other Half Lives* 1890 to Danny Boyle's *Slumdog Millionaire* 2008 the volume provides a number of close readings of films from different historical periods and regions to outline how contemporary film and media practices relate to their past predecessors demonstrating the way various filmmakers both north and south of the equator have repeatedly grappled with rejected or continuously modified documentary and realist modes to convey life in our planet of slums

Childhood and Modernity in Cold War Mexico City Eileen

Ford, 2018-02-22 *Childhood and Modernity in Cold War Mexico City* traces the transformations that occurred between 1934 and 1968 in Mexico through the lens of childhood Countering the dominance of Western European and North American views of childhood Eileen Ford puts the experiences of children in Latin America into their historical political and cultural contexts Drawing on diverse primary sources ranging from oral histories to photojournalism Ford reconstructs the emergent and varying meanings of childhood in Mexico City during a period of changing global attitudes towards childhood and changing power relations in Mexico at multiple scales from the family to the state She analyses children's presence on the silver screen in radio and in print media to examine the way that children were constructed within public discourse identifying the forces that would converge in the 1968 student movement This book demonstrates children's importance within Mexican society as Mexico transitioned from a socialist inspired revolutionary government to one that embraced industrial capitalism in the Cold War era It is a fascinating study of an extremely important burgeoning population group in Mexico that has previously been excluded from histories of Mexico's bid for modernity *Childhood and Modernity in Cold War Mexico City* will be essential reading for students and scholars of Latin American history and the Cold War
