The Making of New World Slavery Robin Blackburn, 2020-05-05 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of *An American Dilemma* Gunnar Myrdal's 1944 classic about race relations in the USA *An American Health Dilemma* presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African

Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes An American Health Dilemma promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system
