Lost Highways, Embodied Travels: The Road Movie in American Experimental Film and Video Kornelia Boczkowska, 2023-02-06 Often identified as one of the most genuine and enduring American film genres the road movie has never been explored in the context of experimental filmmaking To fill this gap Lost Highways Embodied Travels provides the first book length study of over eighty unique and often obscure films and videos and situates them within the corporeal turn in American avant garde cinema so far mostly associated with body genres and

sexually explicit films Drawing on unpublished archival materials the book offers a fresh take on both past and current practices of the experimental film community for scholars students makers and film buffs *Images of Nations and International Public Relations* Michael Kunczik,2016-05-06 This volume addresses the importance of images of nations in international relations One fundamental assumption is that the behavior of states is not the same as that of individuals States are social systems whose behavior as a rule directly corresponds neither to the motives of their respective leaders nor to those of their populations However it is also self evident that international activities always depend on personal relationships The studies presented relate to more or less deliberate attempts to induce change in images Given the interdisciplinary nature of the subject matter findings made in public relations advertising research prejudice research and other fields are also taken into account Very often it is impossible to distinguish between the image of the nation state and the images of big enterprises such as Krupp Ford or Coca Cola For this reason the country of origin effect is also discussed Eating Up Route 66 T.
