Lost Girls Sex And Death In Renaissance Florence:

Lost Girls Nicholas Terpstra, 2010-06-21 In 1554 a group of idealistic laywomen founded a home for homeless and orphaned adolescent girls in one of the worst neighborhoods in Florence. Of the 526 girls who lived in the home during its fourteen year tenure only 202 left there alive. Struck by the unusually high mortality rate, Nicholas Terpstra sets out to determine what killed the lost girls of the House of Compassion shelter, Casa della Pietà. Reaching deep into the archives, letters, ledgers, and records from both inside and outside the home, he slowly pieces together the tragic story. The Casa welcomed girls in bad health and with little future, hoping to save them from an almost certain life of poverty and drudgery. Yet this safe house was cruelly dangerous. Victims of Renaissance Florence's sexual politics, these young women were at the disposal of the city's elite men who treated them as property meant for their personal pleasure. With scholarly precision and journalistic style, Terpstra uncovers and chronicles a series of disturbing leads that point to possible reasons so many girls died: hints of routine abortions, basic medical care for sexually transmitted diseases, and appalling conditions in the textile factories where the girls worked. Church authorities eventually took the Casa della Pietà away from the women who had founded it and moved it to a better part of Florence. Its sordid past was hidden until now in an official history that bore little resemblance to the orphanage's true origins. Terpstra's meticulous investigation not only uncovers the sad fate of the lost girls of the Casa della Pietà but also explores broader themes including gender relations, public health, church politics, and the challenges girls and adolescent women faced in Renaissance Florence. **Forgotten Healers** Sharon T.

Strocchia, 2019-12-17 Winner of the Margaret W. Rossiter History of Women in Science Prize. A new history uncovers the crucial role women played in the great transformations of medical science and health care that accompanied the Italian Renaissance. In Renaissance Italy, women played a more central role in providing health care than historians have thus far acknowledged. Women from all walks of life, from household caregivers and nurses to nuns working as apothecaries, drove the Italian medical economy. In convent pharmacies, pox hospitals, girls' shelters, and homes, women were practitioners and purveyors of knowledge about health and healing, making significant contributions to early modern medicine. Sharon Strocchia offers a wealth of new evidence about how illness was diagnosed and treated, whether by noblewomen living at court or poor nurses living in hospitals. She finds that women expanded on their roles as health care providers by participating in empirical work and the development of scientific knowledge. Nuns, in particular, were among the most prominent manufacturers and vendors of pharmaceutical products. Their experiments with materials and techniques added greatly to the era's understanding of medical care. Thanks to their excellence in medicine, urban Italian women had greater access to commerce than perhaps any other women in Europe. *Forgotten Healers* provides a more accurate picture of the pursuit of health in Renaissance Italy. More broadly, by emphasizing that the frontlines of medical care are often found in the household and other spaces thought of as female, Strocchia encourages us to rethink the history of medicine. *Health and*

Abortion in Early Modern Italy John Christopoulos, 2021-01-01 A comprehensive history of abortion in

Renaissance Italy In this authoritative history John Christopoulos provides a provocative and far reaching account of abortion in sixteenth and seventeenth century Italy His poignant portraits of women who terminated or were forced to terminate pregnancies offer a corrective to longstanding views he finds that Italians maintained a fundamental ambivalence about abortion Italians from all levels of society sought had and participated in abortions Early modern Italy was not an absolute anti abortion culture an exemplary Catholic society centered on the traditional family Rather Christopoulos shows Italians held many views on abortion and their responses to its practice varied Bringing together medical religious and legal perspectives alongside a social and cultural history of sexuality reproduction and the family Christopoulos offers a nuanced and convincing account of the meanings Italians ascribed to abortion and shows how prevailing ideas about the practice were spread modified and challenged Christopoulos begins by introducing readers to prevailing ideas about abortion and women s bodies describing the widely available purgative medicines and surgeries that various healers and women themselves employed to terminate pregnancies He then explores how these ideas and practices ran up against and shaped theology medicine and law Catholic understanding of abortion was changing amid religious legal and scientific debates concerning the nature of human life women s bodies and sexual politics Christopoulos examines how ecclesiastical secular and medical authorities sought to regulate abortion and how tribunals investigated and punished its procurers or did not even when they could have Abortion in Early Modern Italy offers a compelling and sensitive study of abortion in a time of dramatic religious scientific and social change

The Bishop's Burden Celeste McNamara, 2020-08-14 In 1563 the Council of Trent published its Decrees calling for significant reforms of the Catholic Church in response to criticism from both Protestants and Catholics alike Bishops according to the Decrees would take the lead in implementing these reforms They were tasked with creating a Church in which priests and laity were well educated morally upright and focused on worshipping God Unfortunately for these bishops the Decrees provided few practical suggestions for achieving the wide ranging changes demanded Reform was therefore an arduous and complex process which many bishops struggled to accomplish or even refused to undertake fully The Bishop s Burden argues that reforming bishops were forced to be creative and resourceful to accomplish meaningful change including creating strong diocesan governments reforming clerical and lay behavior educating priests and parishioners and converting non believers The book explores this issue through a detailed case study of the episcopacy of Cardinal Bishop Gregorio Barbarigo of Padua bp 1664 1697 asking how a dedicated bishop formulated a reform program that sought to achieve the Church s goals Barbarigo like other reforming bishops borrowed strategies from a variety of sources in the absence of clear guidance from Rome He looked to both pre and post Tridentine bishops the Society of Jesus the Venetian government and the Propaganda Fide which he selectively emulated to address the problems he discovered in Padua The book is based primarily on the detailed records of Barbarigo s visitations of rural parishes and captures the rarely heard voices of seventeenth century Italian peasants The Bishop s Burden helps us understand not only the changes experienced by

early modern Catholics but also how even the most sophisticated plans of central authorities could be frustrated by practical realities which in turn complicates our understanding of state building and social control **Cultures of Charity** Nicholas Terpstra,2013-02-14 Renaissance debates about politics and gender led to pioneering forms of poor relief devised to help women get a start in life These included orphanages for illegitimate children and forced labor in workhouses but also women's shelters and early forms of maternity benefits unemployment insurance food stamps and credit union savings plans

Erin J. Campbell,Stephanie R. Miller,Elizabeth Carroll Consavari,2016-03-23 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and

mediate family values and relationships within the home this volume offers a distinct contribution to research on the early modern Italian domestic interior Though the essays mainly take an art historical approach the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders age and rank as well as for visitors to the home By adopting a broad chronological framework that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino Ferrara and Bologna this collection offers genuinely new perspectives on the home in early modern Italy

The Imagery and Politics of Sexual Violence in Early Renaissance Italy Péter Bokody, 2023-01-26 This book is the first comprehensive study of images of rape in Italian painting at the dawn of the Renaissance Drawing on a wide range of primary sources P ter Bokody examines depictions of sexual violence in religion law medicine literature politics and history writing produced in kingdoms Sicily and Naples and city republics Florence Siena Lucca Bologna and Padua Whilst misogynistic endorsement characterized many of these visual discourses some urban communities condemned rape in their propaganda against tyranny Such representations of rape often link gender and aggression to war abduction sodomy prostitution pregnancy and suicide Bokody also traces how the new naturalism in painting introduced by Giotto increased verisimilitude but also fostered imagery that coupled eroticism and violation Exploring images and texts that have long been overlooked Bokody s study provides new insights at the intersection of gender policy and visual culture with evident relevance to our contemporary condition

The Place of the Social Margins, 1350-1750 Andrew Spicer, Jane L. Stevens Crawshaw, 2016-08-12 This interdisciplinary volume illuminates the shadowy history of the disadvantaged sick and those who did not conform to the accepted norms of society It explores how marginal identity was formed perceived and represented in Britain and Europe during the medieval and early modern periods It illustrates that the identities of marginal groups were shaped by their place within primarily urban communities both in terms of their socio economic status and the spaces in which they lived and worked Some of these groups such as executioners prostitutes pedlars and slaves performed a significant social and economic function but on the basis of this were stigmatized by other townspeople Language was used to control and limit the activities of others within society such as single women and foreigners as well as the victims of sexual crimes For many such as lepers and the disabled marginal status could be ambiguous cyclical or short lived and affected by key religious political and economic events Traditional histories have often considered these groups in isolation Based on new research a series of case studies from Britain and across Europe illustrate and provide important insights into the problems faced by these marginal groups and the ways in which medieval and early modern communities were shaped and developed

Maria Maddalena de' Pazzi Clare Copeland, 2016-08-18 This work offers a detailed reconstruction of the campaigns for and trials resulting in the beatification in 1626 and subsequent canonization in 1169 of the Florentine mystic nun Maria Maddalena de Pazzi 1566 1607 Clare Copeland places her findings in the wide context of the politics of saint

making at a time of particular significance for the history of Roman Catholic canonization The Protestant Reformation had put the Roman Catholic Church on the defensive in this area of devotional practice and the period covered in this volume ca 1600 1669 saw far reaching reforms in the ways in which sanctity was measured and adjudicated by Rome Copeland shows how these developments need to be seen less in terms of a top down attempt by the central organs of ecclesiastical control to impose a hegemony of holiness and more in terms of negotiation over the meanings of sanctity and how it relates to canonization between the various stakeholders
